SOVIET ASTRONOMY—AJ
Volume 11, 1967
A translation of Astronomicheskii Zhurnal

ABBASOV, A. R.
The Change in the Radio Spectrum of Active Regions with Passage behind the Solar Limb. (E) A. R. Abbasov, Sh. Akhmedov, A. S. Grebinskii, and A. P. Molchanov. 11, 1061 (1968) [44, 1326 (1967)]

AGEKYAN, T. A.
A Study of the Dynamics of Triple Systems by Means of Statistical Sampling. (T) T. A. Agekyan and Zh. P. Anosova. 11, 1006 (1968) [44, 1261 (1967)]

AKHMEDOV, Sh.
The Change in the Radio Spectrum of Active Regions with Passage behind the Solar Limb. (E) A. R. Abbasov, Sh. Akhmedov, A. S. Grebinskii, and A. P. Molchanov. 11, 1061 (1968) [44, 1326 (1967)]

AL'BER, Ya. I.
Thermal History of the Moon. (T/E) O. I. Ornatskaya and Ya. I. Al'ber. 11, 122 (1967) [44, 158 (1967)]

ALEKSANDROV, Yu. N.
Characteristics of the Spectrum of Radio Waves Reflected by Venus. (E) Yu. N. Aleksandrov, V. A. Zyatitskii, and O. N. Rzhiga. 11, 852 (1968) [44, 1060 (1967)]

ALEKSEEV, V. A.
Results of Measurements of Lunar Radio Emission at 25.0 and 30.2 cm. (E) V. A. Alekseev, L. N. Bondar', S. A. Kamenskaya, V. D. Krotikov, Yu. G. Matveev, V. A. Porfir'ev, and K. M. Strezhneva. 11, 471 (1967) [44, 593 (1967)]
The Roughness of the Moon's Surface Layer as It Affects the Lunar Emissivity and Radio-Brightness Distribution. (E) V. A. Alekseev, T. N. Aleshnia, V. D. Krotikov, and V. S. Troitskii. 11, 860 (1968) [44, 1070 (1967)]

ALESHIN, V. I.
An Estimate for the Mixing Length from Stellar-Variability Theory. I. Adiabatic Pulsations in Models of δ Cephei and RR Lyrae Variables. (T) V. I. Aleshin. 11, 982 (1968) [44, 1228 (1967)]

ALESHINA, T. N.
The Roughness of the Moon's Surface Layers as It Affects the Lunar Emissivity and Radio-Brightness Distribution. (E) V. A. Alekseev, T. N. Aleshina, V. D. Krotikov, and V. S. Troitskii. 11, 860 (1968) [44, 1070 (1967)]

ANOSOVA, Zh. P.
A Study of the Dynamics of Triple Systems by Means of Statistical Sampling. (T) T. A. Agekyan and Zh. P. Anosova. 11, 1006 (1968) [44, 1261 (1967)]

ARKHIPOVA, V. P.
Absolute Emission-Line Intensities in Planetary Nebulae. III. (E) B. A. Vorontsov-Vel'yaminov, E. B. Kostyakova, O. D. Dokuchaeva, and V. P. Arkhipova. 11, 285 (1967) [44, 361 (1967)]
The Physical Parameters of Planetary Nebulae. (E) V. P. Arkhipova and E. B. Kostyakova. 11, 812 (1968) [44, 1009 (1967)]

ARTAMONOV, B. P.
Photoelectric Observations of the Polarization and Color of the Reflection Nebula near Merope. (E) B. P. Artamonov and Yu. S. Efimov. 11, 607 (1968) [44, 755 (1967)]
Observations of a Bright Filament in the Southern Part of NGC 7000 with a Fabry-Perot Étalon. (E) B. P. Artamonov and P. V. Shcheglov. 11, 892 (1968) [44, 1114 (1967)]

ARTYUKH, V. S.
Radio-Source Spectra at Meter Wavelengths. (E) V. S. Artyukh, V. V. Vitkevich, and R. D. Dagkesamanskii. 11, 792 (1968) [44, 984 (1967)]

ASTAPOVICH, I. S.
An Investigation into the Perturbed Motion of the Leonid Meteor Stream. (T) E. I. Kazimirchak-Polonskaya, N. A. Belyaev, I. S. Astapovich, and A. K. Terent'eva. 11, 490 (1967) [44, 616 (1967)]

AVDEEV, N. Ya.
The Optical Characteristics of Some Cosmic and Terrestrial Surfaces. (T/E) M. P. Volarovich and N. Ya. Avdeev. 11, 342 (1967) [44, 431 (1967)]

BABII, B. T.
Tables of the Saturation Function $\Psi(a, y)$. (T) P. A. Oliinyk, B. T. Babii, and A. T. Sakhman. 11, 648 (1968) [44, 810 (1967)]

BARNOTHY, J. M.
The Redshift-Absolute Magnitude Relation of Quasi-Stellar Sources. (E) J. M. Barnothy and M. F. Barnothy. 11, 895 (1968) [44, 1117 (1967)]

BARNOTHY, M. F.
The Redshift-Absolute Magnitude Relation of Quasi-Stellar Sources. (E) J. M. Barnothy and M. F. Barnothy. 11, 895 (1968) [44, 1117 (1967)]

BEIGMAN, I. L.
The $I_{\gamma_\alpha}/I_{\gamma_\beta}$ Intensity Ratio of the O VIII Ion in the Spectrum of the Solar Corona. (T/E) I. L. Beigman and L. A. Vainshtein. 11, 531 (1967) [44, 668 (1967)]
Cross Sections for Ionization of Ions by Electron Impact. (T) I. L. Beigman and L. A. Vainshtein. 11, 712 (1968) [44, 889 (1967)]

BELIKOVICH, V. V.
Decameter Spectrum of the Discrete Sources Cassiopeia A and Cygnus A. (E) V. V. Belikovich, E. A. Benediktov, and Yu. S. Korobkov. 11, 789 (1968) [44, 981 (1967)]

BEL'KOVICH, O. I.
Distribution of the Durations of Radio Echoes from Overdense Meteor Trails for a Nonuniform Meteoroid Mass Distribution. (T) O. I. Bel'kovich. 11, 507 (1967) [44, 638 (1967)]

BELYAEV, N. A.
Orbital Evolution of Comets Neuimin 2 (1916 II), Comas Solá (1927 III), and Schwassmann-Wachmann 2 (1929 I) over the 400 Years from 1660 to 2060. (T/E) N. A. Belyaev. 11, 366 (1967) [44, 461 (1967)]
An Investigation into the Perturbed Motion of the Leonid Meteor Stream. (T) E. I. Kazimirchak-Polonskaya, N. A. Belyaev, I. S. Astapovich, and A. K. Terent'eva. 11, 490 (1967) [44, 616 (1967)]

BENEDIKTOV, E. A.
Decameter Spectrum of the Discrete Sources Cassiopeia A and Cygnus A. (E) V. V. Belikovich, E. A. Benediktov, and Yu. S. Korobkov. 11, 789 (1968) [44, 981 (1967)]

BERDICHEVSKAYA, V. S.
A Periodicity in the North-South Asymmetry of the Sunspot Distribution at the Minimum of New Cycles. (E) V. S. Berdichevskaya. 11, 283 (1967) [44, 358 (1967)]

BISNOVATYI-KOGAN, G. S.
Evolution of Supermassive Stars Stabilized by Large-Scale Motions. (T) G. S. Bisnovatyi-Kogan, Ya. B. Zel'dovich, and I. D. Novikov. 11, 419 (1967) [44, 525 (1967)]

BONDAR', L. N.
Results of Measurements of Lunar Radio Emission at 25.0 and 30.2 cm. (E) V. A. Alekseev, L. N. Bondar', S. A. Kamenskaya, V. D. Krotikov, Yu. G. Matveev, V. A. Porfir'ev, and K. M. Strezhneva. 11, 471 (1967) [44, 593 (1967)]

BOTSULA, R. A.
Photometric Elements, Absolute Dimensions, and Masses for the Eclipsing System RR Lyncis. (T/E) R. A. Botsula. 11, 1000 (1968) [44, 1253 (1967)]

BOYARCHUK, A. A.
The Nature of AG Pegasi. (E/T) A. A. Boyarchuk. 11, 8 (1967) [44, 12 (1967)]
The Binary Nature of Z Andromedae. (E/T) A. A. Boyarchuk. 11, 818 (1968) [44, 1016 (1967)]

BRANDT, V. É.
Environmental Influences on Star Observations with a Transit Instrument. (E) V. É. Brandt. 11, 150 (1967) [44, 196 (1967)]

BRAUDE, S. Ya.
Spectra and the Frequency Dependence of Angular Dimensions of Some Models of Discrete Sources of Cosmic Radio Emission. (T) S. Ya. Braude. 11, 244 (1967) [44, 309 (1967)]

BRUMBERG, V. A.
A Numerical Development of a Generalized Planetary Theory. (T) V. A. Brumberg. 11, 156 (1967) [44, 204 (1967)]

CHEREPASHCHUK, A. M.
An Interpretation of Eclipsing Systems as an Inverse Problem of Photometry. (T/E) A. M. Cherepashchuk, A. V. Goncharskii, and A. G. Yagola. 11, 990 (1968) [44, 1239 (1967)]

CHERNIN, A. D.
The Fragmentation of Matter in a Turbulent Metagalactic Medium. I. (T) L. M. Ozernoi and A. D. Chernin. 11, 907 (1968) [44, 1131 (1967)]

CHERTOK, I. M.
The Doppler Effect as the Cause of the Splitting in Type II Radio-Burst Spectra. (T/E) V. V. Fomichev and I. M. Chertok. 11, 396 (1967) [44, 495 (1967)]

CHERTOPRUD, V. E.
Variable Radiation in a Magnetodynamic Quasar Model. I. Statistical Properties of the Cyclic Variability. (T/E) L. M. Ozernoi and V. E. Chertoprud. 11, 428 (1967) [44, 537 (1967)]

CHUGAINOV, P. F.
Photoelectric and Spectrographic Observations of the Flares of UV Ceti in 1965. (E) R. E. Gershberg and P. F. Chugainov. 11, 205 (1967) [44, 260 (1967)]

CHUVAEV, K. K.
Spectrophotometry of the Jet in NGC 4486. (E) V. I. Pronik, I. I. Pronik, and K. K. Chuvaev. 11, 777 (1968) [44, 965 (1967)]

DAGKESAMANSKII, R. D.
Radio-Source Spectra at Meter Wavelengths. (E) V. S. Artyukh, V. V. Vitkevich, and R. D. Dagkesamanskii. 11, 792 (1968) [44, 984 (1967)]

DASHEVSKII, V. M.
Cosmological Deductions from Observations of Quasistellar Sources. (T) V. M. Dashevskii and Ya. B. Zel'dovich. 11, 52 (1967) [44, 67 (1967)]

DEICH, A. N.
G. Van Biesbroeck. Micrometric Measures of Double Stars. (R) Reviewed by A. N. Deich. 11, 377 (1967) [44, 475 (1967)]

DERBENEVA, A. D.
The Luminous Flux and Ionizing Power of Meteor Trails. (T/E) A. D. Derbeneva. 11, 688 (1968) [44, 860 (1967)]

DIBAI, É. A.
The Optical Spectrum of the Quasistellar Radio Source 3C-345. (E) É. A. Dibai and V. F. Esipov. 11, 43 (1967) [44, 55 (1967)]
Spectra of Some Blue Objects in High Galactic Latitudes. (E/T) É. A. Dibai and V. F. Esipov. 11, 220 (1967) [44, 278 (1967)]
The Nucleus of the Seyfert Galaxy NGC 5548. (E) É. A. Dibai, V. F. Esipov, and V. I. Pronik. 11, 553 (1968) [44, 689 (1967)]
A Spectrophotometric Study of Seyfert-Galaxy Nuclei. (E/T) É. A. Dibai and V. I. Pronik. 11, 767 (1968) [44, 952 (1967)]

DIVARI, N. B.
The Influence of Direct Solar Radiation Pressure on the Motion of Particles in the Circumterrestrial Dust Cloud. (T) N. B. Divari and Yu. A. Klikh. 11, 672 (1968) [44, 840 (1967)]
A Meteor Model for the Zodiacal Cloud. (T/E) N. B. Divari. 11, 1048 (1968) [44, 1309 (1967)]

DOKUCHAEVA, O. D.
Absolute Emission-Line Intensities in Planetary Nebulae. III. (E) B. A. Vorontsov-Vel'yaminov, E. B. Kostyakova, O. D. Dokuchaeva, and V. P. Arkhipova. 11, 285 (1967) [44, 361 (1967)]

DOLGINOV, A. Z.
Grain Formation in a Comet Atmosphere through Condensation of Gas. (T/E) A. Z. Dolginov. 11, 345 (1967) [44, 434 (1967)]

DOROSHENKO, V. T.
Spectrophotometry of AG Draconis. (E) V. T. Doroshenko and N. S. Nikolov. 11, 453 (1967) [44, 570 (1967)]

DOROSHKEVICH, A. G.
The Origin of Galaxies in an Expanding Universe. (T) A. G. Doroshkevich, Ya. B. Zel'dovich, and I. D. Novikov. 11, 233 (1967) [44, 295 (1967)]

DRAVSKIKH, A. F.
Detection and Investigation of the 5-cm Excited-Hydrogen Radio Line ($n_{105} \rightarrow n_{104}$) in Several Galactic Nebulae. (E/T) A. F. Dravskikh and Z. V. Dravskikh. 11, 27 (1967) [44, 35 (1967)]

DRAVSKIKH, Z. V.
Detection and Investigation of the 5-cm Excited-Hydrogen Radio Line ($n_{105} \rightarrow n_{104}$) in Several Galactic Nebulae. (E/T) A. F. Dravskikh and Z. V. Dravskikh. 11, 27 (1967) [44, 35 (1967)]

DUBOV, É. E.
Structure of the Lower Chromosphere. (E/T) É. E. Dubov. 11, 269 (1967) [44, 342 (1967)]

DUBROVSKII, G. V.
Decay of Molecular Hydrogen Ions through Collision with Thermal Electrons. (T) G. V. Dubrovskii and V. D. Ob'edkov. 11, 305 (1967) [44, 387 (1967)]

EFIMOV, Yu. S.
Photoelectric Observations of the Polarization and Color of the Reflection Nebula near Merope. (E) B. P. Artamonov and Yu. S. Efimov. 11, 607 (1968) [44, 755 (1967)]

EFREMOV, Yu. N.
Some Evolutionary Patterns for Classical Cepheids. (E/T) Yu. N. Efremov and I. M. Kopylov. 11, 23 (1967) [44, 31 (1967)]

ESIPOV, V. F.
The Optical Spectrum of the Quasistellar Radio Source 3C-345. (E) É. A. Dibai and V. F. Esipov. 11, 43 (1967) [44, 55 (1967)]
Spectra of Some Blue Objects in High Galactic Lattices. (E/T) É. A. Dibai and V. F. Esipov. 11, 220 (1967) [44, 278 (1967)]
The Nucleus of the Seyfert Galaxy NGC 5548. (E) É. A. Dibai, V. F. Esipov, and V. I. Pronik. 11, 553 (1968) [44, 689 (1967)]
The Infrared Spectrum of Algol. (E/T) I. N. Glushneva and V. F. Esipov. 11, 828 (1968) [44, 1028 (1967)]

FEDOSEEV, L. I.
Measurements of Solar Radio Emission at Millimeter and Submillimeter Wavelengths. (E) L. I. Fedoseev, L. V. Lubyako, and L. M. Kukin. 11, 953 (1968) [44, 1191 (1967)]

FESENKOV, V. G.
A Satellite Technique for Sounding the Optical Properties of the Atmosphere. (T/E) V. G. Fesenkov. 11, 1 (1967) [3, 3 (1967)]

FIALKO, E. I.
Comments on Marcus' Criticism of "The Energy Distribution of Meteoroids." E. I. Fialko. 11, 539 (1967) [44, 677 (1967)]
The True and Apparent Kinetic-Energy Distribution of Meteoroids. (T/E) E. I. Fialko. 11, 692 (1968) [44, 864 (1967)]

FOMICHEV, V. V.
The Doppler Effect as the Cause of the Splitting in Type II Radio-Burst Spectra. (T/E) V. V. Fomichev and I. M. Chertok. 11, 396 (1967) [44, 495 (1967)]

FRADKIN, M. I.
Measurements of the Cosmic-Ray Nuclei of the Solar-Activity Minimum of 1964-1965. (E) L. V. Kurnosova, L. A. Razorenov, A. A. Suslov, S. I. Syrovat-skii, and M. I. Fradkin. 11, 624 (1968) [44, 778 (1967)]

FRANK-KAMENETSKII, D. A.
On the Interpretation of Excess Infrared Emission of Nonstationary Stars. (E/T) I. G. Kolesnik and D. A. Frank-Kamenetskii. 11, 726 (1968) [44, 905 (1967)]

GEL'MONT, B. L.
Thermomagnetic Waves and Thermomagnetic Instability in Strongly Ionized Low-Density Astronomical Objects. (T) L. É. Gurevich and B. L. Gel'mont. 11, 609 (1968) [44, 757 (1967)]

GERMOGENOVA, T. A.
Scattering of Solar Lyman-α Radiation by Galactic Hydrogen. (T/E) V. G. Kurt and T. A. Germogenova. 11, 278 (1967) [44, 352 (1967)]

GERSHBERG, R. E.
A Conference in Memory of Academician G. A. Shain. (R) R. E. Gershberg. 11, 184 (1967) [44, 237 (1967)]
Photoelectric and Spectrographic Observations of the Flares of UV Ceti in 1965. (E) R. E. Gershberg and P. F. Chugainov. 11, 205 (1967) [44, 260 (1967)]

GETLING, A. V.
Propagation of Hydromagnetic Waves in a Slightly Inhomogeneous Medium. (T) A. V. Getling. 11, 410 (1967) [44, 513 (1967)]

GIDALEVICH, E. Ya.
High-Condensation Shock Waves in a Gas-Dust Medium. (T) E. Ya. Gidalevich. 11, 614 (1968) [44, 764 (1967)]

GLUSHNEVA, I. N.
Behavior of the Ca II K Line in the Spectrum of Algol. (E) I. E. Val'tts and I. N. Glushneva. 11, 585 (1968) [44, 728 (1967)]
The Infrared Spectrum of Algol. (E/T) I. N. Glushneva and V. F. Esipov. 11, 828 (1968) [44, 1028 (1967)]

GNEDIN, Yu. N.
The Inverse Problem in the Theory of Cometary Forms. (T) Yu. N. Gnedin. 11, 485 (1967) [44, 610 (1967)]

GNEVYSHEVA, R. S.
A Comparison of the Pulkovo and Greenwich Sunspot Catalogs. (E) R. S. Gnevysheva. 11, 976 (1968) [44, 1220 (1967)]

GONCHARSKII, A. V.
An Interpretation of Eclipsing Systems as an Inverse Problem of Photometry. (T/E) A. M. Cherepashchuk, A. V. Goncharskii, and A. G. Yagola. 11, 990 (1968) [44, 1239 (1967)]

GORDON, I. M.
A Possibility for Determining Plasma Parameters in Supernova Envelopes. (T/E) I. M. Gordon. 11, 565 (1968) [44, 702 (1967)]
The Structure and Mass of Supernova, Quasar, and Seyfert-Galaxy Envelopes. (T/E) I. M. Gordon. 11, 920 (1968) [44, 1146 (1967)]

GREBINSKII, A. S.
The Change in the Radio Spectrum of Active Regions with Passage behind the Solar Limb. (E) A. R. Abbasov, Sh. Akhmedov, A. S. Grebinskii, and A. P. Molchanov. 11, 1061 (1968) [44, 1326 (1967)]

GRISHCHUK, L. P.
Cosmological Models and Spatial-Homogeneity Criteria. (T) L. P. Grishchuk. 11, 881 (1968) [44, 1097 (1967)]

GUDNOV, V. M.
Radio Emission of the $n_{105} \rightarrow n_{104}$ Excited-Hydrogen Line in Several Northern Nebulae. (E/T) V. M. Gudnov and R. L. Sorochenko. 11, 805 (1968) [44, 1001 (1967)]

GUREVICH, L. É.
Thermomagnetic Waves and Thermomagnetic Instability in Strongly Ionized Low-Density Astronomical Objects. (T) L. É. Gurevich and B. L. Gel'mont. 11, 609 (1968) [44, 757 (1967)]

GUREVICH, V. B.
Astronomical Determination of Position on the Moon. (T/E) V. B. Gurevich. 11, 137 (1967) [44, 178 (1967)]
A Method for Determining the Rotation Elements of Planets. (T) V. B. Gurevich. 11, 856 (1968) [44, 1065 (1967)]

GURSHTEIN, A. A.
Possibilities for Determining the Absolute Heights of Points on the Lunar Surface from Earth-Based Observations. (T) A. A. Gurshtein. 11, 535 (1967) [44, 672 (1967)]

GUSEVA, N. N.
A Two-Channel Photoelectric Spectrophotometer with Photon-Count Recording. (E) G. S. Tsarevskii and N. N. Guseva. 11, 1063 (1968) [44, 1329 (1967)]

IKHSANOV, R. N.
The Observation and Interpretation of Some Regularities of Sunspot Development. (E) R. N. Ikhsanov. 11, 843 (1968) [44, 1048 (1967)]
The Time Dependence of the Magnetic-Field Strength of Sunspots. (E) R. N. Ikhsanov. 11, 969 (1968) [44, 1211 (1967)]

IMSHENNIK, V. S.
The Influence of Line Absorption on the Internal Structure of Massive Stars. (T) V. S. Imshennik and D. K. Nadezhin. 11, 297 (1967) [44, 377 (1967)]
Neutrino Energy Radiation in the β Interaction of Electrons and Positrons with Nuclei. (T) V. S. Imshennik, D. K. Nadezhin, and V. S. Pinaev. 11, 617 (1968) [44, 768 (1967)]

IOFFE, Z. M.
Comets in the Solar Wind. III. (T) Z. M. Ioffe. 11, 668 (1968) [44, 835 (1967)]
Some Magnetohydrodynamic Effects in Comets. (T) Z. M. Ioffe. 11, 1044 (1968) [44, 1304 (1967)]

IVANCHUK, V.
The Third Conference on Comet Physics. (R) V. Ivanchuk. 11, 544 (1967) [44, 682 (1967)]

JOBST, RUDOLF
The 120th Anniversary of the Carl Zeiss Works, Jena, and the 150th Anniversary of the Birth of Carl Zeiss. (R) Rudolf Jobst. 11, 173 (1967) [44, 227 (1967)]

KAMENSKAYA, S. A.
Results of Measurements of Lunar Radio Emission at 25.0 and 30.2 cm. (E) V. A. Alekseev, L. N. Bondar', S. A. Kamenskaya, V. D. Krotikov, Yu. G. Matveev, V. A. Porfir'ev, and K. M. Strezhneva. 11, 471 (1967) [44, 593 (1967)]

KAPLAN, S. A.
The Theory of Strong Shock Propagation in an Inhomogeneous Cosmic Medium. (T) S. A. Kaplan. 11, 302 (1967) [44, 384 (1967)]
A Possible Interpretation of the Radio Emission from Small Cosmic Sources. (T) S. A. Kaplan. 11, 416 (1967) [44, 521 (1967)]
An Interpretation of the Dip in the Spectrum of Millimeter Solar Radio Emission. (T/E) S. A. Kaplan and V. N. Tsytovich. 11, 834 (1968) [44, 1036 (1967)]
Radio Emission from Beams of Fast Particles under Cosmic Conditions. (T) S. A. Kaplan and V. N. Tsytovich. 11, 956 (1968) [44, 1194 (1967)]

KARDASHEV, N. S.
The Submillimeter and Infrared Transmittance of the Atmosphere at the North Pole of Cold. (E) N. V. Vasil'chenko, N. S. Kardashev, V. I. Moroz, I. K. Morozov, A. N. Repin, and G. S. Khromov. 11, 720 (1968) [44, 897 (1967)]

KARETNIKOV, V. G.
Spectrophotometry of RZ Scuti. (E/T) V. G. Karetnikov. 11, 16 (1967) [44, 22 (1967)]

KAZIMIRCHAK-POLONSKAYA, E. I.
Evolution of Short-Period Comet Orbits from 1660 to 2060, and the Role of the Outer Planets. (T/E) E. I. Kazimirchak-Polonskaya. 11, 349 (1967) [44, 439 (1967)]
An Investigation into the Perturbed Motion of the Leonid Meteor Stream. (T) E. I. Kazimirchak-Polonskaya, N. A. Belyaev, I. S. Astapovich, and A. K. Terent'eva. 11, 490 (1967) [44, 616 (1967)]

KHARITONOV, A. V.
Absolute Spectral Energy Distribution for 14 Bright Pleiades Stars. (E) A. V. Kharitonov. 11, 533 (1967) [44, 669 (1967)]
Absolute Spectral Energy Distribution for 18 Type B5-M2 Stars. (E) A. V. Kharitonov and L. N. Knyazeva. 11, 598 (1968) [44, 745 (1967)]
Polarimetry of the Tail of Comet Ikeya-Seki. (E) V. S. Matyagin, Sh. N. Sabitov, and A. V. Kharitonov. 11, 863 (1968) [44, 1075 (1967)]

KHARITONOVA, G. A.
A Short Method for Determining the Transparency Coefficients of the Earth's Atmosphere. (E) G. A. Kharitonova. 11, 1066 (1968) [44, 1331 (1967)]
KHROMOV, G. S.
The Submillimeter and Infrared Transmittance of the Atmosphere at the North Pole of Cold. (E) N. V. Vasil'chenko, N. S. Kardashev, V. I. Moroz, I. K. Morozov, A. N. Repin, and G. S. Khromov. 11, 720 (1968) [44, 897 (1967)]
KISLYAKOV, A. G.
Radio Emission of the Crab Nebula and Jupiter at 77.5-GHz Frequency. (E) A. G. Kislyakov and Yu. V. Lebskii. 11, 561 (1968) [44, 697 (1967)]
Preliminary Results of 2.11-mm Observations of Discrete Radio Sources. (E) A. G. Kislyakov and A. I. Naumov. 11, 1059 (1968) [44, 1324 (1967)]
KLIKH, Yu. A.
The Influence of Direct Solar Radiation Pressure on the Motion of Particles in the Circumterrestrial Dust Cloud. (T) N. B. Divari and Yu. A. Klikh. 11, 672 (1968) [44, 840 (1967)]
KNYAZEVA, L. N.
Absolute Spectral Energy Distribution for 18 Type B5-M2 Stars. (E) A. V. Kharitonov and L. N. Knyazeva. 11, 598 (1968) [44, 745 (1967)]
KOKIN, Yu. F.
The 8-cm Radio Emission of Two Quasistellar Galaxies. (E) V. N. Kuril'chik and Yu. F. Kokin. 11, 473 (1967) [44, 471 (1967)]
KOLESNIK, I. G.
On the Interpretation of the Excess Infrared Emission of Nonstationary Stars. (E/T) I. G. Kolesnik and D. A. Frank-Kamenetskii. 11, 726 (1968) [44, 905 (1967)]
KOMAROV, N. S.
Kinematic and Morphological Properties of Stars with Enhanced Metal Lines. (E/T) N. S. Komarov. 11, 84 (1967) [44, 110 (1967)]
KOMBERG, B. V.
A Binary System as a Quasar Model. (E/T) B. V. Komberg. 11, 727 (1968) [44, 906 (1967)]
KOPYLOV, I. M.
Some Evolutionary Patterns for Classical Cepheids. (E/T) Yu. N. Efremov and I. M. Kopylov. 11, 23 (1967) [44, 31 (1967)]
KORCHAK, A. A.
Possible Mechanisms for Generating Hard X Rays in Solar Flares. (T) A. A. Korchak. 11, 258 (1967) [44, 328 (1967)]
KOROBKOV, Yu. S.
Decameter Spectrum of the Discrete Sources Cassiopeia A and Cygnus A. (E) V. V. Belikovich, E. A. Benediktov, and Yu. S. Korobkov. 11, 789 (1968) [44, 981 (1967)]
KOROL', L. N.
The Efficiency of a Two-Chamber Image Converter in Visual Observations. (E) L. N. Korol' and L. V. Ksanfomaliti. 11, 716 (1968) [44, 893 (1967)]
KOSTYAKOVA, E. B.
Spectrophotometry of Some Southern Milky Way Fields. (E) A. S. Sharov and E. B. Kostyakova. 11, 75 (1967) [44, 98 (1967)]
Absolute Emission-Line Intensities in Planetary Nebulae. III. (E) B. A. Vorontsov-Vel'yaminov, E. B. Kostyakova, O. D. Dokuchaeva, and V. P. Arkhipova. 11, 285 (1967) [44, 361 (1967)]
The Physical Parameters of Planetary Nebulae. (E) V. P. Arkhipova and E. B. Kostyakova. 11, 812 (1968) [44, 1009 (1967)]
KRAMER, E. N.
Accelerated Motion during Meteor Vaporization and Fragmentation. (E/T) E. N. Kramer. 11, 510 (1967) [44, 642 (1967)]
KROTIKOV, V. D.
Measurement of Radio Emission from the Moon in the 30-60 cm Band. (E) V. S. Troitskii, V. D. Krotikov, and N. M. Tseitlin. 11, 327 (1967) [44, 413 (1967)]
Results of Measurements of Lunar Radio Emission at 25.0 and 30.2 cm. (E) V. A. Alekseev, L. N. Bondar', S. A. Kamenskaya, V. D. Krotikov, Yu. G. Matyeev, V. A. Porfir'ev, and K. M. Strezhneva. 11, 471 (1967) [44, 593 (1967)]
The Roughness of the Moon's Surface Layers as It Affects the Lunar Emissivity and Radio-Brightness Distribution. (E) V. A. Alekseev, T. N. Aleshnina, V. D. Krotikov, and V. S. Troitskii. 11, 860 (1968) [44, 1070 (1967)]
KSANFOMALITI, L. V.
The Efficiency of a Two-Chamber Image Converter in Visual Observations. (E) L. N. Korol' and L. V. Ksanfomaliti. 11, 716 (1968) [44, 893 (1967)]
KUKIN, L. M.
Measurements of Solar Radio Emission at Millimeter and Submillimeter Wavelengths. (E) L. I. Fedoseev, L. V. Lubyako, and L. M. Kukin. 11, 953 (1968) [44, 1191 (1967)]
KULIKOV, K. A.
A Noteworthy Anniversary. K. A. Kulikov. 11, 548 (1967) [44, 685 (1967)]
KURIL'CHIK, V. N.
The 8-cm Radio Emission of Two Quasistellar Galaxies. (E) V. N. Kuril'chik and Yu. F. Kokin. 11, 374 (1967) [44, 471 (1967)]
Radio Emission of Normal Galaxies at 8 cm. (E) V. N. Kuril'chik, L. V. Onishchenko, and V. M. Turevskii. 11, 528 (1967) [44, 665 (1967)]
KURNOSOVA, L. V.
Measurements of the Cosmic-Ray Nuclei of the Solar-Activity Minimum of 1964-1965. (E) L. V. Kurnosova, L. A. Razorenov, A. A. Suslov, S. I. Syrovat-skii, and M. I. Fradkin. 11, 624 (1968) [44, 778 (1967)]
KUROCHKA, L. N.
Stark Broadening of Hydrogen Lines. (T) L. N. Kurochka. 11, 290 (1967) [44, 368 (1967)]
KURT, V. G.
Scattering of Solar Lyman-α Radiation by Galactic Hydrogen. (T/E) V. G. Kurt and T. A. Germogenova. 11, 278 (1967) [44, 352 (1967)]
Observations and Interpretation of the Ultraviolet Radiation of the Galaxy. (E) V. G. Kurt and R. A. Syunyaev. 11, 928 (1968) [44, 1157 (1967)]
LAVRUKHINA, A. K.
Intensity Distribution of the Nuclear-Active Component of Cosmic Rays in Meteorites. (T) A. K. Lavrukhina and G. K. Ustinova. 11, 868 (1968) [44, 1081 (1967)]
LAZAREV, R. G.
Some Statistical Characteristics of Meteor Matter in the Neighborhood of the Earth's Orbit. (E/T) R. G. Lazarev. 11, 679 (1968) [44, 849 (1967)]
LEBEDINETS, V. N.
Fragmentation of Dense Meteoroids in the Atmosphere. (T/E) V. N. Lebedinets and Yu. I. Portnyagin. 11, 700 (1968) [44, 874 (1967)]
LEBSKII, Yu. V.
Radio Emission of the Crab Nebula and Jupiter at 77.5-GHz Frequency. (E) A. G. Kislyakov and Yu. V. Lebskii. 11, 561 (1968) [44, 697 (1967)]
LEVIN, B. Yu.
The Parameter F of Meteor Fragmentation. (E) B. Yu. Levin and A. N. Simonenko. 11, 501 (1967) [44, 630 (1967)]
The Role of Secondary Craters in Forming the Lunar Relief. (E) B. Yu. Levin. 11, 662 (1968) [44, 828 (1967)]
An Explanation for the Albedo Differences on the Moon. (E/T) B. Yu. Levin and L. N. Radlova. 11, 1034 (1968) [44, 1296 (1967)]
LIPSKII, Yu. N.
Some Results of Measurements of the Total Stokes Vector for Details of the Lunar Surface. (E) Yu. N. Lipskii and M. M. Pospergelis. 11, 324 (1967) [44, 410 (1967)]
LIVSHITS, M. A.
An Interpretation of Observations of CO Lines in the Solar Spectrum. (T/E) M. A. Livshits and V. V. Polonskii. 11, 965 (1968) [44, 1206 (1967)]

LODEN, LARS OLOF
Statistical Identification of Stellar Associations of Various Spectral Types – A Field in Centaurus. (T/E) Lars Olof Loden. 11, 602 (1968) [44, 750 (1967)]
LOSOVSKII, B. Ya.
Observations of Polarization of Lunar Radio Emission at 0.8 cm with High Resolution. (E) B. Ya. Losovskii. 11, 329 (1967) [44, 416 (1967)]
LUBYAKO, L. V.
Measurements of Solar Radio Emission at Millimeter and Submillimeter Wavelengths. (E) L. I. Fedoseev, L. V. Lubyako, and L. M. Kukin. 11, 953 (1968) [44, 1191 (1967)]
LUDD, L. S.
The Spectrum of P Cygni in 1964. (T/E) L. S. Ludd. 11, 211 (1967) [44, 267 (1967)]
LYABIN, V. M.
The Balmer Discontinuities of Peculiar and Magnetic A Stars. (T/E) V. M. Lyabin. 11, 979 (1968) [44, 1224 (1967)]
LYU VAN LYONG
A Detailed Analysis of Spectral Lines of Wolf-Rayet Type Stars. (T/E) Lyu Van Lyong. 11, 224 (1967) [44, 283 (1967)]
MAKSUMOV, M. N.
The Critical Wavelength in a System of Stars and Interstellar Gas. (T) M. N. Maksumov. 11, 79 (1967) [44, 103 (1967)]
Absolute and Convective Instability in Gravitating Systems. (T) M. N. Maksumov. 11, 639 (1968) [44, 798 (1967)]
Collective Processes in Bounded Gravitating Systems. (T) M. N. Maksumov. 11, 1015 (1968) [44, 1274 (1967)]
MARCUS, ALLAN H.
Comments on Fialko's Paper, "The Energy Distribution of Meteoroids." Allan H. Marcus. 11, 537 (1967) [44, 675 (1967)]
MARIK, M.
Chromospheric Heating above a Sunspot. (T) M. Marik. 11, 264 (1967) [44, 336 (1967)]
MAROCHNIK, L. S.
A Test Star in a Stellar System. (T) L. S. Marochnik. 11, 873 (1968) [44, 1087 (1967)]
MATVEENKO, L. I.
An Investigation of the Crab Nebula at 8.2 mm. (E) L. I. Matveenko and A. V. Pavlov. 11, 300 (1967) [44, 381 (1967)]
Observations of a Lunar Occultation of the Crab Nebula at 3.3-cm Wavelength. (E) L. I. Matveenko and R. L. Sorochenko. 11, 557 (1968) [44, 693 (1967)]
MATVEEV, Yu. G.
Reflection Coefficient for a Plane-Layered Lunite Medium for Different Angles of Incidence of Electromagnetic Waves. (T/E) Yu. G. Matveev. 11, 332 (1967) [44, 419 (1967)]
Results of Measurements of Lunar Radio Emission at 25.0 and 30.2 cm. (E) V. A. Alekseev, L. N. Bondar', S. A. Kamenskaya, V. D. Krotikov, Yu. G. Matveev, V. A. Porfir'ev, and K. M. Strezhneva. 11, 471 (1967) [44, 593 (1967)]
MATYAGIN, V. S.
Polarimetry of the Tail of Comet Ikeya-Seki. (E) V. S. Matyagin, Sh. N. Sabitov, and A. V. Kharitonov. 11, 863 (1968) [44, 1075 (1967)]
MEL'NIKOV, O. A.
P. I. Bakulin, É. V. Kononovich, and V. I. Moroz. A Course in General Astronomy. (R) Reviewed by O. A. Mel'nikov and A. A. Mikhailov. 11, 900 (1968) [44, 1123 (1967)]
MIKHAILOV, A. A.
P. I. Bakulin, É. V. Kononovich, and V. I. Moroz. A Course in General Astronomy. (R) Reviewed by O. A. Mel'nikov and A. A. Mikhailov. 11, 900 (1968) [44, 1123 (1967)]
MINAEVA, L. A.
The Discrete Radio-Frequency Spectrum of Atomic Hydrogen. (T/E) L. A. Minaeva, I. I. Sobel'man, and R. L. Sorochenko. 11, 800 (1968) [44, 995 (1967)]
MININ, I. N.
An Optical Model for the Atmosphere of Mars. (T/E) I. N. Minin. 11, 1024 (1968) [44, 1284 (1967)]
MOLCHANOV, A. P.
The Change in the Radio Spectrum of Active Regions with Passage behind the Solar Limb. (E) A. R. Abbasov, Sh. Akhmedov, A. S. Grebinskii, and A. P. Molchanov. 11, 1061 (1968) [44, 1326 (1967)]
MOROZ, V. I.
The Spectrum of Mars, 1.1-2.5 μ, at the 1965 Opposition. (E/T) N. V. Vasil'chenko and V. I. Moroz. 11, 456 (1967) [44, 573 (1967)]
The CO_2 Bands and Some Optical Properties of the Atmosphere of Venus. (E/T) V. I. Moroz. 11, 653 (1968) [44, 816 (1967)]
The Submillimeter and Infrared Transmittance of the Atmosphere at the North Pole of Cold. (E) N. V. Vasil'chenko, N. S. Kardashev, V. I. Moroz, I. K. Morozov, A. N. Repin, and G. S. Khromov. 11, 720 (1968) [44, 897 (1967)]
MOROZOV, I. K.
The Submillimeter and Infrared Transmittance of the Atmosphere at the North Pole of Cold. (E) N. V. Vasil'chenko, N. S. Kardashev, V. I. Moroz, I. K. Morozov, A. N. Repin, and G. S. Khromov. 11, 720 (1968) [44, 897 (1967)]
MUSTEL', É. R.
Some Regularities in the Problem of Solar Activity and the Earth's Atmosphere. (E) É. R. Mustel'. 11, 932 (1968) [44, 1162 (1967)]
NADEZHIN, D. K.
The Influence of Line Absorption on the Internal Structure of Massive Stars. (T) V. S. Imshennik and D. K. Nadezhin. 11, 297 (1967) [44, 377 (1967)]
Neutrino Energy Radiation in the β Interaction of Electrons and Positrons with Nuclei. (T) V. S. Imshennik, D. K. Nadezhin, and V. S. Pinaev. 11, 617 (1968) [44, 768 (1967)]
NAUMOV, A. I.
Preliminary Results of 2.11-mm Observations of Discrete Radio Sources. (E) A. G. Kislyakov and A. I. Naumov. 11, 1059 (1968) [44, 1324 (1967)]
NAUMOV, V. A.
Preliminary Results of Observations with the Pulkovo Photographic Vertical Circle. (E) V. A. Naumov, A. A. Naumova, N. Seebach, C. Torres, and M. S. Zverev. 11, 148 (1967) [44, 193 (1967)]
NAUMOVA, A. A.
Preliminary Results of Observations with the Pulkovo Photographic Vertical Circle. (E) V. A. Naumov, A. A. Naumova, N. Seebach, C. Torres, and M. S. Zverev. 11, 148 (1967) [44, 193 (1967)]
NEIMAN, V. B.
Some New Data on the Morphology of the Lunar Surface. (E) V. B. Neiman. 11, 665 (1968) [44, 831 (1967)]
NIKOLOV, N. S.
Normal Cepheid Color Indices. II. (E) N. S. Nikolov. 11, 92 (1967) [44, 120 (1967)]
NIKOL'SKAYA, K. I.
The Problem of Helium Emission in the Chromosphere. (T/E) K. I. Nikol'skaya. 11, 839 (1968) [44, 1043 (1967)]
NIKOL'SKII, G. M.
Tests of the 535-mm Singlet Objective of the Large New Coronagraph. (E) G. M. Nikol'skii and A. A. Sazanov. 11, 337 (1967) [44, 426 (1967)]
The Mean Temperature of the Solar Corona. (T/E) G. M. Nikol'skii. 11, 837 (1968) [44, 1040 (1967)]
NOVIKOV, I. D.
The Origin of Galaxies in an Expanding Universe. (T) A. G. Doroshkevich, Ya. B. Zel'dovich, and I. D. Novikov. 11, 233 (1967) [44, 295 (1967)]
An Explanation of the Anomalous Helium Abundance in the Star 3 Cen A. (T) I. D. Novikov and R. A. Syunyaev. 11, 252 (1967) [44, 320 (1967)]
Spectrophotometry of AG Draconis. (E) V. T. Doroshenko and N. S. Nikolov. 11, 453 (1967) [44, 570 (1967)]
Evolution of Supermassive Stars Stabilized by Large-Scale Motions. (T) G. S. Bisnovatyi-Kogan, Ya. B. Zel'dovich, and I. D. Novikov. 11, 419 (1967) [44, 525 (1967)]

The Uniqueness of the Interpretation of Isotropic Cosmic Radiation with T = 3°K. (T/E) Ya. B. Zel'dovich and I. D. Novikov. 11, 526 (1967) [44, 663 (1967)]
The Fourth "Texas" Symposium on Relativistic Astrophysics. (R) I. D. Novikov. 11, 541 (1967) [44, 680 (1967)]

OB'EDKOV, V. D.
Decay of Molecular Hydrogen Ions through Collision with Thermal Electrons. (T) G. V. Dubrovskii and V. D. Ob'edkov. 11, 305 (1967) [44, 387 (1967)]

OGORODNIKOV, K. F.
Conditions for the Presence of a Corona around a Stationary, Spherically Symmetric Stellar System. (T/E) K. F. Ogorodnikov. 11, 308 (1967) [44, 390 (1967)]

OLIINYK, P. A.
Tables of the Saturation Function $\psi(\alpha, \gamma)$. (T) P. A. Oliinyk, B. T. Babii, and A. T. Sakhman. 11, 648 (1968) [44, 810 (1967)]

ONISHCHENKO, L. V.
Radio Emission of Normal Galaxies at 8 cm. (E) V. N. Kuril'chik, L. V. Onishchenko, and V. M. Turevskii. 11, 528 (1967) [44, 665 (1967)]

ORLOV, V. P.
Geocentric Trajectories for Particles of a Single Class. (T) V. P. Orlov. 11, 166 (1967) [44, 217 (1967)]

ORNATSKAYA, O. I.
Thermal History of the Moon. (T/E) O. I. Ornatskaya and Ya. I. Al'ber. 11, 122 (1967) [44, 158 (1967)]

OZERNOI, L. M.
Variable Radiation in a Magnetodynamic Quasar Mode. I. Statistical Properties of the Cyclic Variability. (T/E) L. M. Ozernoi and V. E. Chertoprud. 11, 428 (1967) [44, 537 (1967)]
The Fragmentation of Matter in a Turbulent Metagalactic Medium. I. (T) L. M. Ozernoi and A. D. Chernin. 11, 907 (1968) [44, 1131 (1967)]

PANARIN, Yu. P.
Apparent Stellar Density Distributions in Some Open Clusters. (E) Yu. P. Panarin. 11, 103 (1967) [44, 134 (1967)]

PANDE, M. Ch.
The Possibility of Formation of Triatomic Molecules in the Solar Atmosphere. (T) M. Ch. Pande and G. F. Sitnik. 11, 70 (1967) [44, 91 (1967)]
Vibrational and Kinetic Temperatures for CO Molecules in the Solar Photosphere. (E/T) G. F. Sitnik and M. Ch. Pande. 11, 403 (1967) [44, 504 (1967)]
Two Decay Processes for CO Molecules in the Solar Photosphere. (T) G. F. Sitnik and M. Ch. Pande. 11, 588 (1968) [44, 732 (1967)]
Equilibrium Distribution of CO Molecules over Their Degrees of Freedom in the Solar Atmosphere. (T) M. Ch. Pande. 11, 592 (1968) [44, 737 (1967)]

PARIISKII, Yu. N.
The Intergalactic Medium According to Radio Observations. (T/E) Yu. N. Pariiskii. 11, 782 (1968) [44, 971 (1967)]

PAVLOV, A. V.
An Investigation of the Crab Nebula at 8.2 mm. (E) L. I. Matveenko and A. V. Pavlov. 11, 300 (1967) [44, 381 (1967)]

PIKEL'NER, S. B.
The Noordwijk Symposium: Radio Astronomy and the Galaxy. (R) S. B. Pikel'ner. 11, 178 (1967) [44, 233 (1967)]
Heating of the Interstellar Gas by Subcosmic Rays, and the Formation of Clouds. (T/E) S. B. Pikel'ner. 11, 737 (1968) [44, 915 (1967)]

PINAEV, V. S.
Neutrino Energy Radiation in the β Interaction of Electrons and Positrons with Nuclei. (T) V. S. Imshennik, D. K. Nadezhin, and V. S. Pinaev. 11, 617 (1968) [44, 768 (1967)]

PIOTROWSKI, S. L.
Some Problems of Mass Transfer in Close Binary Systems. (R) S. L. Piotrowski. 11, 191 (1967) [44, 241 (1967)]

PLECHKOV, V. M.
Precise Measurement of Lunar Radio Emission at 1.8, 2, and 2.5 cm. (E) V. M. Plechkov. 11, 119 (1967) [44, 154 (1967)]

PODURETS, M. A.
Calculation of the Gravitational Collapse of a Superstar. (T) A. I. Voropinov, V. L. Zaguskin, and M. A. Podurets. 11, 442 (1967) [44, 556 (1967)]

POLISHCHUK, R. F.
Behavior of a Clock Moving in a Centrally Symmetric Gravitational Field. (T) R. F. Polishchuk. 11, 886 (1968) [44, 1104 (1967)]

POLONSKII, V. V.
An Interpretation of Observations of CO Lines in the Solar Spectrum. (T/E) M. A. Livshits and V. V. Polonskii. 11, 965 (1968) [44, 1206 (1967)]

POLYAKOV, G. G.
Rocket-Thrust Compensation for Disturbing Forces of Newtonian Gravitation. (T) G. G. Polyakov. 11, 723 (1968) [44, 901 (1967)]

PORFIR'EV, V. A.
Results of Measurements of Lunar Radio Emission at 25.0 and 30.2 cm. (E) V. A. Alekseev, L. N. Bondar', S. A. Kamenskaya, V. D. Krotikov, Yu. G. Matveev, V. A. Porfir'ev, and K. M. Strezhneva. 11, 471 (1967) [44, 593 (1967)]

PORTNYAGIN, Yu. I.
Fragmentation of Dense Meteoroids in the Atmosphere. (T/E) V. N. Lebedinets and Yu. I. Portnyagin. 11, 700 (1968) [44, 874 (1967)]

POSPERGELIS, M. M.
Some Results of Measurements of the Total Stokes Vector for Details of the Lunar Surface. (E) Yu. N. Lipskii and M. M. Pospergelis. 11, 324 (1967) [44, 410 (1967)]

PRONIK, I. I.
Spectrophotometry of the Jet in NGC 4486. (E) V. I. Pronik, I. I. Pronik, and K. K. Chuvaev. 11, 777 (1968) [44, 965 (1967)]

PRONIK, V. I.
The Nucleus of the Seyfert Galaxy NGC 5548. (E) É. A. Dibai, V. F. Esipov, and V. I. Pronik. 11, 553 (1968) [44, 689 (1967)]
A Spectrophotometric Study of Seyfert-Galaxy Nuclei. (E/T) É. A. Dibai and V. I. Pronik. 11, 767 (1968) [44, 952 (1967)]
Spectrophotometry of the Jet in NGC 4486. (E) V. I. Pronik, I. I. Pronik, and K. K. Chuvaev. 11, 777 (1968) [44, 965 (1967)]

PSKOVSKII, Yu. P.
The Photometric Properties of Supernovae. (E) Yu. P. Pskovskii. 11, 63 (1967) [44, 82 (1967)]
Phase Dependence of the Colors of Type I and II Supernovae. (E) Yu. P. Pskovskii. 11, 570 (1968) [44, 708 (1967)]
The Type and Absolute-Magnitude Distributions of Galaxies Containing Supernovae. (E) Yu. P. Pskovskii. 11, 914 (1968) [44, 1139 (1967)]

PUZANOV, V. I.
Measurements of the Temperature of the Primordial Background Radiation at 8.2-mm Wavelength. (E) V. I. Puzanov, A. E. Salomonovich, and K. S. Stankevich. 11, 905 (1968) [44, 1129 (1967)]

RADLOVA, L. N.
An Explanation for the Albedo Differences on the Moon. (E/T) B. Yu. Levin and L. N. Radlova. 11, 1034 (1968) [44, 1296 (1967)]

RADZIEVSKII, V. V.
Gravitational Capture of Cosmic Dust by the Sun and Planets and Evolution of the Circumterrestrial Cloud. (T) V. V. Radzievskii. 11, 128 (1967) [44, 166 (1967)]

RAZORENOV, L. A.
Measurements of the Cosmic-Ray Nuclei of the Solar-Activity Minimum of 1954-1965. (E) L. V. Kurnosova, L. A. Razorenov, A. A. Suslov, S. I. Syrovat-skii, and M. I. Fradkin. 11, 624 (1968) [44, 778 (1967)]

REPIN, A. N.
The Submillimeter and Infrared Transmittance of the Atmosphere at the North Pole of Cold. (E) N. V. Vasil'chenko, N. S. Kardashev, V. I. Moroz, I. K. Morozov, A. N. Repin, and G. S. Khromov. 11, 720 (1968) [44, 897 (1967)]

ROZENTAL', I. L.
Interaction of Cosmic Rays with Primordial Radiation. (T) I. L. Rozental'. 11, 448 (1967) [44, 563 (1967)]

RUDNICKI, K.
General Features of Clusters of Galaxies. (R) K. Rudnicki. 11, 59 (1967) [44, 77 (1967)]

RZHIGA, O. N.
An Estimate of the Physical Properties of the Martian Surface from the Results of Radio and Infrared Observations. (E/T) O. N. Rzhiga. 11, 113 (1967) [44, 147 (1967)]
Characteristics of the Spectrum of Radio Waves Reflected by Venus. (E) Yu. N. Aleksandrov, V. A. Zyatitskii, and O. N. Rzhiga. 11, 852 (1968) [44, 1060 (1967)]

SABITOV, Sh. N.
Polarimetry of the Tail of Comet Ikeya-Seki. (E) V. S. Matyagin, Sh. N. Sabitov, and A. V. Kharitonov. 11, 863 (1968) [44, 1075 (1967)]

SAKHMAN, A. T.
Tables of the Saturation Function $\Psi(\alpha, \gamma)$. (T) P. A. Olinyk, B. T. Babii, and A. T. Sakhman. 11, 648 (1968) [44, 810 (1967)]

SALOMONOVICH, A. E.
Measurements of the Temperature of the Primordial Background Radiation at 8.2-mm Wavelength. (E) V. I. Puzanov, A. E. Salomonovich, and K. S. Stankevich. 11, 905 (1968) [44, 1129 (1967)]

SAVEL'EVA, M. V.
Spectrophotometry of Nova Herculis 1960. (E) M. V. Savel'eva. 11, 576 (1968) [44, 716 (1967)]

SAZANOV, A. A.
Tests of the 535-mm Singlet Objective of the Large New Coronagraph. (E) G. M. Nikol'skii and A. A. Sazanov. 11, 337 (1967) [44, 426 (1967)]

SEEBACH, N.
Preliminary Results of Observations with the Pulkovo Photographic Vertical Circle. (E) V. A. Naumov, A. A. Naumova, N. Seebach, C. Torres, and M. S. Zverev. 11, 148 (1967) [44, 193 (1967)]

SEVERNYI, A. B.
Preliminary Communication on Short-Term Oscillations of Solar Magnetic Fields. (E) A. B. Severnyi. 11, 383 (1967) [44, 481 (1967)]

SHATSOVA, R. B.
Peculiar Motions of O and B Stars. (E/T) R. B. Shatsova. 11, 313 (1967) [44, 396 (1967)]

SHAROV, A. S.
Spectrophotometry of Some Southern Milky Way Fields. (E) A. S. Sharov and E. B. Kostyakova. 11, 75 (1967) [44, 98 (1967)]

SHCHEGLOV, P. V.
Detection of the Fe X 6374 A Line in the Spectrum of the Nebula NGC 6960. (E) P. V. Shcheglov. 11, 567 (1968) [44, 705 (1967)]
Observations of a Bright Filament in the Southern Part of NGC 7000 with a Fabry-Perot Étalon. (E) B. P. Artamonov and P. V. Shcheglov. 11, 892 (1968) [44, 1114 (1967)]

SHINGAREVA, K. B.
D. W. G. Arthur, Alice P. Agnieray, Ruth A. Horvath, C. A. Wood, C. R. Chapman, Ruth M. Pellicori, and T. Weller. The System of Lunar Craters, Quadrants I–IV. (R) Reviewed by K. B. Shingareva. 11, 378 (1967) [44, 475 (1967)]

SHKLOVSKII, I. S.
The Nature of the X Radiation of Radio Galaxies. (T/E) I. S. Shklovskii. 11, 45 (1967) [44, 58 (1967)]
Possible Maser Effect in Clouds of Interstellar Hydrogen in the Galactic Corona. (T) I. S. Shklovskii. 11, 240 (1967) [44, 304 (1967)]
The Nature of the X-Ray Source Sco X-1. (T/E) I. S. Shklovskii. 11, 749 (1968) [44, 930 (1967)]

SHOLOMITSKII, G. B.
The Radio Luminosity Function of Galaxies. (T/E) G. B. Sholomitskii. 11, 756 (1968) [44, 939 (1967)]

SIDORENKOV, N. S.
Nonuniformities in the Earth's Rotation from Astronomical Observations during 1955.5–1965.0. (E) N. S. Sidorenkov. 11, 516 (1967) [44, 650 (1967)]

SIMONENKO, A. N.
The Parameter F of Meteor Fragmentation. (E) B. Yu. Levin and A. N. Simonenko. 11, 501 (1967) [44, 630 (1967)]

SITNIK, G. F.
The Possibility of Formation of Triatomic Molecules in the Solar Atmosphere. (T) M. Ch. Pandé and G. F. Sitnik. 11, 70 (1967) [11, 91 (1967)]
Vibrational and Kinetic Temperatures for CO Molecules in the Solar Photosphere. (E/T) G. F. Sitnik and M. Ch. Pande. 11, 403 (1967) [44, 504 (1967)]
Two Decay Processes for CO Molecules in the Solar Photosphere. (T) G. F. Sitnik and M. Ch. Pande. 11, 588 (1968) [44, 732 (1967)]

SLYSH, V. I.
Solar Radio Emission at 2 and 0.2 MHz. (E/T) V. I. Slysh. 11, 72 (1967) [44, 94 (1967)]
Observations of Type III Solar Radio Bursts with the Venus 2 Probe. (E/T) V. I. Slysh. 11, 389 (1967) [44, 487 (1967)]

SMIRNOV, V. A.
Identification of Spectral Lines in Meteors by Means of Laboratory Dispersion Standards. (E) V. A. Smirnov. 11, 1053 (1968) [44, 1316 (1967)]

SOBEL'MAN, I. I.
The Discrete Radio-Frequency Spectrum of Atomic Hydrogen. (T/E) L. A. Minaeva, I. I. Sobel'man, and R. L. Sorochenko. 11, 800 (1968) [44, 995 (1967)]

SOROCHENKO, R. L.
Observations of a Lunar Occultation of the Crab Nebula at 3.3-cm Wavelength. (E) L. I. Matveenko and R. L. Sorochenko. 11, 557 (1968) [44, 693 (1967)]
The Discrete Radio-Frequency Spectrum of Atomic Hydrogen. (T/E) L. A. Minaeva, I. I. Sobel'man, and R. L. Sorochenko. 11, 800 (1968) [44, 995 (1967)]
Radio Emission of the $n_{105} \rightarrow n_{104}$ Excited-Hydrogen Line in Several Northern Nebulae. (E/T) V. M. Gudnov and R. L. Sorochenko. 11, 805 (1968) [44, 1001 (1967)]

STANKEVICH, K. S.
Measurements of the Temperature of the Primordial Background Radiation at 8.2-mm Wavelength. (E) V. I. Puzanov, A. E. Salomonovich, and K. S. Stankevich. 11, 905 (1968) [44, 1129 (1967)]

STREZHNEVA, K. M.
Results of Measurements of Lunar Radio Emission at 25.0 and 30.2 cm. (E) V. A. Alekseev, L. N. Bondar', S. A. Kamenskaya, V. D. Krotikov, Yu. G. Matveev, V. A. Porfir'ev, and K. M. Strezhneva. 11, 471 (1967) [44, 593 (1967)]

SUSLOV, A. A.
Measurements of the Cosmic-Ray Nuclei of the Solar-Activity Minimum of 1964–1965. (E) L. V. Kurnosova, L. A. Razorenkov, A. A. Suslov, S. I. Syrovat-skii, and M. I. Fradkin. 11, 624 (1968) [44, 778 (1967)]

SYROVAT-SKII, S. I.
Measurements of the Cosmic-Ray Nuclei of the Solar-Activity Minimum of 1964–1965. (E) L. V. Kurnosova, L. A. Razorenov, A. A. Suslov, S. I. Syrovat-skii, and M. I. Fradkin. 11, 624 (1968) [44, 778 (1967)]
Oscillatory Convection of a Conducting Gas in a Strong Magnetic Field. (T) S. I. Syrovat-skii and Yu. D. Zhugzhda. 11, 945 (1968) [44, 1180 (1967)]

SYUNYAEV, R. A.
An Explanation of the Anomalous Helium Abundance in the Star 3 Cen A. (T) I. D. Novikov and R. A. Syunyaev. 11, 252 (1967) [44, 320 (1967)]
Observations and Interpretation of the Ultraviolet Radiation of the Galaxy. (E) V. G. Kurt and R. A. Syunyaev. 11, 928 (1968) [44, 1157 (1967)]

TERENT'EVA, A. K.
An Investigation into the Perturbed Motion of the Leonid Meteor Stream. (T) E. I. Kazimirchak-Polonskaya, N. A. Belyaev, I. S. Astapovich, and A. K. Terent'eva. 11, 490 (1967) [44, 616 (1967)]

TOMOZOV, V. M.
On Possibilities of Close Encounters of Galaxies. V. M. Tomozov. 11, 1020 (1968) [44, 1280 (1967)]

TORRES, C.
Preliminary Results of Observations with the Pulkovo Photographic Vertical Circle. (E) V. A. Naumov, A. A. Naumova, N. Seebach, C. Torres, and M. S. Zverev. 11, 148 (1967) [44, 193 (1967)]

TROITSKII, V. S.
Measurement of Radio Emission from the Moon in the 30-60 cm Band. (E) V. S. Troitskii, V. D. Krotikov, and N. M. Tseitlin. 11, 327 (1967) [44, 413 (1967)]
The Roughness of the Moon's Surface Layer as It Affects the Lunar Emissivity and Radio-Brightness Distribution. (E) V. A. Alekseev, T. N. Aleshina, V. D. Krotikov, and V. S. Troitskii. 11, 860 (1968) [44, 1070 (1967)]

TSAREVSKII, G. S.
A Two-Channel Photoelectric Spectrophotometer with Photon-Count Recording. (E) G. S. Tsarevskii and N. N. Guseva. 11, 1063 (1968) [44, 1329 (1967)]

TSEITLIN, N. M.
Measurement of Radio Emission from the Moon in the 30-60 cm Band. (E) V. S. Troitskii, V. D. Krotikov, and N. M. Tseitlin. 11, 327 (1967) [44, 413 (1967)]

TSESEVICH, V. P.
Some Methods for Determining Eclipsing-Binary Elements. (T/E) V. P. Tsesevich. 11, 107 (1967) [44, 139 (1967)]

TSYTOVICH, V. N.
An Interpretation of the Dip in the Spectrum of Millimeter Solar Radio Emission. (T/E) S. A. Kaplan and V. N. Tsytovich. 11, 834 (1968) [44, 1036 (1967)]
Radio Emission from Beams of Fast Particles under Cosmic Conditions. (T) S. A. Kaplan and V. N. Tsytovich. 11, 956 (1968) [44, 1194 (1967)]

TUREVSKII, V. M.
Radio Emission of Normal Galaxies at 8 cm. (E) V. N. Kuril'chik, L. V. Onishchenko, and V. M. Turevskii. 11, 528 (1967) [44, 665 (1967)]

USMANOV, R. F.
Altitude Variations in the Main Isobaric Surfaces Following Solar Flares. (E) R. F. Usmanov. 11, 942 (1968) [44, 1176 (1967)]

USTINOVA, G. K.
Intensity Distribution of the Nuclear-Active Component of Cosmic Rays in Meteorites. (T) A. K. Lavrukhina and G. K. Ustinova. 11, 868 (1968) [44, 1081 (1967)]

VAINSHTEIN, L. A.
The Ly_α / Ly_β Intensity Ratio of the O VIII Ion in the Spectrum of the Solar Corona. (T/E) I. L. Beigman and L. A. Vainshtein. 11, 531 (1967) [44, 668 (1967)]
Cross Sections for Ionization of Ions by Electron Impact. (T) I. L. Beigman and L. A. Vainshtein. 11, 712 (1968) [44, 889 (1967)]

VAISBERG, V. V.
The Metagalactic Radio Background in Evolving Model Universes. (T) V. V. Vaisberg. 11, 644 (1968) [44, 805 (1967)]

VAL'TTS, I. E.
Behavior of the Ca II K Line in the Spectrum of Algol. (E) I. E. Val'tts and I. N. Glushneva. 11, 585 (1968) [44, 728 (1967)]

VANDAKUROV, Yu. V.
The Frequency Distribution of Stellar Oscillations. (T) Yu. V. Vandakurov. 11, 630 (1968) [44, 786 (1967)]

VASIL'CHENKO, N. V.
The Spectrum of Mars, 1.1-2.5 μ, at the 1965 Opposition. (E/T) N. V. Vasil'chenko and V. I. Moroz. 11, 456 (1967) [44, 573 (1967)]
The Submillimeter and Infrared Transmittance of the Atmosphere at the North Pole of Cold. (E) N. V. Vasil'chenko, N. S. Kardashev, V. I. Moroz, I. K. Morozov, A. N. Repin, and G. S. Khromov. 11, 720 (1968) [44, 897 (1967)]

VITKEVICH, V. V.
Radio-Source Spectra at Meter Wavelengths. (E) V. S. Artyukh, V. V. Vitkevich, and R. D. Dagkesamanskii. 11, 792 (1968) [44, 984 (1967)]

VITRICHENKO, É. A.
A New Spectroscopic Binary Star, HD 3950. (E) É. A. Vitrichenko. 11, 898 (1968) [44, 1121 (1967)]

VOLAROVICH, M. P.
The Optical Characteristics of Some Cosmic and Terrestrial Surfaces. (T/E) M. P. Volarovich and N. Ya. Avdeev. 11, 342 (1967) [44, 431 (1967)]

VORONTSOV-VEL'YAMINOV, B. A.
Absolute Emission-Line Intensities in Planetary Nebulae. III. (E) B. A. Vorontsov-Vel'yaminov, E. B. Kostyakova, O. D. Dokuchaeva, and V. P. Arkhipova. 11, 285 (1967) [44, 361 (1967)]

VOROPINOV, A. I.
Calculation of the Gravitational Collapse of a Superstar. (T) A. I. Voropinov, V. L. Zaguskin, and M. A. Podurets. 11, 442 (1967) [44, 556 (1967)]

VSEKHSVYATSKII, S. K.
New Evidence for the Eruptive Origin of Comets and Meteoritic Matter. (T/E) S. K. Vsekhsvyatskii. 11, 473 (1967) [44, 595 (1967)]

YAGOLA, A. G.
An Interpretation of Eclipsing Systems as an Inverse Problem of Photometry. (T/E) A. M. Cherepashchuk, A. V. Goncharskii, and A. G. Yagola. 11, 990 (1968) [44, 1239 (1967)]

YAKIMOV, V. E.
Space Distribution of Different Types of Stars in the Globular Cluster M 13. (E/T) V. E. Yakimov. 11, 99 (1967) [44, 129 (1967)]

ZAGUSKIN, V. L.
Calculation of the Gravitational Collapse of a Superstar. (T) A. I. Voropinov, V. L. Zaguskin, and M. A. Podurets. 11, 442 (1967) [44, 556 (1967)]

ZAITSEV, V. V.
The Turbulent Structure and Radio Emission of Shock Waves in Rarefied Plasma. (T) V. V. Zaitsev. 11, 392 (1967) [44, 490 (1967)]

ZASOV, A. V.
The Possibility of a Long Lifetime for Intergalactic Arms. (T/E) A. V. Zasov. 11, 785 (1968) [44, 975 (1967)]

ZEL'DOVICH, Ya. B.
Cosmological Deductions from Observations of Quasistellar Sources. (T) V. M. Dashevskii and Ya. B. Zel'dovich. 11, 52 (1967) [44, 67 (1967)]
The Origin of Galaxies in an Expanding Universe. (T) A. G. Doroshkevich, Ya. B. Zel'dovich, and I. D. Novikov. 11, 233 (1967) [44, 295 (1967)]
Evolution of Supermassive Stars Stabilized by Large-Scale Motions. (T) G. S. Bisnovatyi-Kogan, Ya. B. Zel'dovich, and I. D. Novikov. 11, 419 (1967) [44, 525 (1967)]
The Uniqueness of the Interpretation of Isotropic Cosmic Radiation with T = 3°K. (T/E) Ya. B. Zel'dovich and I. D. Novikov. 11, 526 (1967) [44, 663 (1967)]

ZHELEZNYAKOV, V. V.
A Coherent Synchrotron Mechanism for Radio Emission from Cosmic Sources. (T/E) V. V. Zheleznyakov. 11, 33 (1967) [44, 42 (1967)]

ZHUGZHDA, Yu. D.
Oscillatory Convection of a Conducting Gas in a Strong Magnetic Field. (T) S. I. Syrovat-skii and Yu. D. Zhugzhda. 11, 945 (1968) [44, 1180 (1967)]

ZLOTNIK, E. Ya.
The Influence of Saturn's Rings on Its Exosphere and Magnetic Field. (T/E) E. Ya. Zlotnik. 11, 462 (1967) [44, 581 (1967)]

ZVEREV, M. S.
Preliminary Results of Observations with the Pulkovo Photographic Vertical Circle. (E) V. A. Naumov, A. A. Naumova, N. Seebach, C. Torres, and M. S. Zverev. 11, 148 (1967) [44, 193 (1967)]

ZYATITSKII, V. A.
Characteristics of the Spectrum of Radio Waves Reflected by Venus. (E) Yu. N. Aleksandrov, V. A. Zyatitskii, and O. N. Rzhiga. 11, 852 (1968) [44, 1060 (1967)]

SUBJECT INDEX

SOVIET ASTRONOMY – AJ
Volume 11, 1967
A translation of Astronomicheskii Zhurnal

Entries for papers in Volume 11 will be found under the following headings, here arranged substantially in the order adopted by the Astronomischer Jahresbericht.

I. Publications, History, Activities

Book reviews
Book news
Abstracts
Errata
Astronomy, History and Progress
Personalia and Obituaries
Conferences and Meetings

II. Physics, Astronautics

Ionization and Excitation
Particle Physics
Plasma Processes
Shock Waves
Astronautics
Artificial Satellites
Space Probes
Moon and Planets, Observations from

III. Instrumentation

Instruments and Accessories

IV. Positional Astronomy

Astrometry
Earth, Rotation

V. Theoretical Astronomy

Celestial Mechanics
Orbits, Theory and Computation
Dynamics and Kinematics of Stellar Systems
Cosmogony and Cosmology
Relativity and Gravitation

VI. Theoretical Astrophysics

Radiation Scattering
Synchrotron Radiation
X Rays, Emission Mechanisms
Neutrino Radiation
Hydrogen Atoms
Gravitational Instability
Convective Instability
Magnetohydrodynamics
Stars, Structure and Evolution
Stars, Pulsation Theory
Stars, Supermassive
Spectra, Line Profiles

VII. Sun

Sun, Molecules in Atmosphere
Sunspots
Sun, Magnetic Fields
Chromosphere
Corona
Solar Wind
Sun, Radio Emission
Sun, Ultraviolet Emission
Sun, X Rays
Sun, Cosmic Rays

VIII. Earth

Earth, Atmosphere
Solar-Terrestrial Relationships

IX. Planets and Satellites

Planets and Satellites
Venus
Moon, Surface Properties
Moon, Origin and Evolution
Moon, Radio Emission
Selenodesy
Mars
Jupiter
Saturn

X. Interplanetary Objects

Comets, Physical Properties
Comets, Motions
Comets, Origin and Evolution
Meteors, Physical Properties
Meteors, Spectra
Meteor Streams
Meteors, Radar Observations
Meteorites
Interplanetary Medium
Meteoritic Material in Solar System
Zodiacal Light

XI. Stars

Stars, Motions
Stars, Spectrophotometry
Stars, Wolf-Rayet and Emission-Line
Stars, Metal-Line and Magnetic
Stars, Peculiar

XII. Double and Multiple Stars

Binary and Multiple Stars

XIII. Variable Stars

Variable Stars
Binaries, Eclipsing
Cepheids
Stars, Symbiotic
Novae
Supernovae

XIV. Diffuse Objects, Radio Sources, Cosmic Rays

Nebulae, Diffuse
Nebulae, Planetary
Interstellar Medium
Radio Astronomy
Radio Emission Mechanisms
Radio Line Emissions
Discrete Radio Sources
Crab Nebula

Supernova Remnants
Radar Astronomy
Ultraviolet Emission
X-Ray Sources
Cosmic Rays

XV. Stellar Systems, Extragalactic Objects

Clusters, Open
Clusters, Globular
Associations, Stellar
Galaxy (Milky Way), Spectrophotometry
Galaxy, Radio Emission
Galaxies, Origin and Evolution
Galaxies, Peculiar
Galaxies, Radio Emission
Galaxies, Interacting
Galaxies, Clusters of
Quasistellar Objects, Conferences
Quasistellar Objects, Optical Observations
Quasistellar Objects, Radio Observations
Quasistellar Objects, Physical Theory
Quasistellar Objects, Cosmological Theory
Intergalactic Medium
Primordial Background Radiation

ABSTRACTS

Radiophysics – Abstracts of Papers on Astrophysics Published in Radiofizika, Vol. 9, Nos. 1-3, January-June, 1966. (R) 11, 380 (1967) [44, 477 (1967)]

Radiophysics: Abstracts of Papers on Astrophysics Published in the Journal Izvestiya Vysshikh Uchebnykh Zavedenii – Radiofizika. (R) 11, 1068 (1968) [44, 1333 (1967)]

ARTIFICIAL SATELLITES

A Satellite Technique for Sounding the Optical Properties of the Atmosphere. (T/E) V. G. Fesenkov. 11, 1 (1967) [44, 3 (1967)]

ASSOCIATIONS, STELLAR

Statistical Identification of Stellar Associations of Various Spectral Types – A Field in Centaurus. (T/E) Lars Olof Loden. 11, 602 (1968) [44, 750 (1967)]

ASTROMETRY

Preliminary Results of Observations with the Pulkovo Photographic Vertical Circle. (E) V. A. Naumov, A. A. Naumova, N. Seebach, C. Torres, and M. S. Zverev. 11, 148 (1967) [44, 193 (1967)]

ASTRONAUTICS

Rocket-Thrust Compensation for Disturbing Forces of Newtonian Gravitation. (T) G. G. Polyakov. 11, 723 (1968) [44, 901 (1967)]

ASTRONOMY, HISTORY AND PROGRESS

50 Years of Soviet Astronomy. (R) 11, 735 (1968) [44, 913 (1967)]

BINARIES, ECLIPSING

Spectrophotometry of RZ Scuti. (E/T) V. G. Karetnikov. 11, 16 (1967) [44, 22 (1967)]

Some Methods for Determining Eclipsing-Binary Elements. (T/E) V. P. Tsesevich. 11, 107 (1967) [44, 139 (1967)]

Behavior of the Ca II K Line in the Spectrum of Algol. (E) I. E. Val'tts and I. N. Glushneva. 11, 585 (1968) [44, 728 (1967)]

The Infrared Spectrum of Algol. (E/T) I. N. Glushneva and V. F. Esipov. 11, 828 (1968) [44, 1028 (1967)]

An Interpretation of Eclipsing Systems as an Inverse Problem of Photometry. (T/E) A. M. Cherepashchuk, A. V. Goncharskii, and A. G. Yagola. 11, 990 (1968) [44, 1239 (1967)]

Photometric Elements, Absolute Dimensions, and Masses for the Eclipsing System RR Lyncis. (T/E) R. A. Botsula. 11, 1000 (1968) [44, 1253 (1967)]

BINARY AND MULTIPLE STARS

Some Problems of Mass Transfer in Close Binary Systems. (R) S. L. Piotrowski. 11, 191 (1967) [44, 241 (1967)]

The Binary Nature of Z Andromedae. (E/T) A. A. Boyarchuk. 11, 818 (1968) [44, 1016 (1967)]

A New Spectroscopic Binary Star, HD 3950. (E) É. A. Vitrichenko. 11, 898 (1968) [44, 1121 (1967)]

BOOK NEWS

New Books on Astronomy. (R) 11, 549 (1967) [44, 686 (1967)]

BOOK REVIEWS

G. Van Biesbroeck. Micrometric Measures of Double Stars. (R) Reviewed by A. N. Deich. 11, 377 (1967) [44, 475 (1967)]

D. W. G. Arthur, Alice P. Agnieray, Ruth A. Horvath, C. A. Wood, C. R. Chapman, Ruth H. Pellicori, and T. Weller. The System of Lunar Craters, Quadrants I-IV. (R) Reviewed by K. B. Shingareva. 11, 378 (1967) [44, 475 (1967)]

CELESTIAL MECHANICS

A Numerical Development of a Generalized Planetary Theory. (T) V. A. Brumberg. 11, 156 (1967) [44, 204 (1967)]

CEPHEIDS

Some Evolutionary Patterns for Classical Cepheids. (E/T) Yu. N. Efremov and I. M. Kopylov. 11, 23 (1967) [44, 31 (1967)]

Normal Cepheid Color Indices. II. (E) N. S. Nikolov. 11, 92 (1967) [44, 120 (1967)]

An Estimate for the Mixing Length from Stellar-Variability Theory. I. Adiabatic Pulsations in Models of δ Cephei and RR Lyrae Variables. (T) V. I. Aleshin. 11, 982 (1968) [44, 1228 (1967)]

CHROMOSPHERE

Chromospheric Heating above a Sunspot. (T) M. Marik. 11, 264 (1967) [44, 336 (1967)]

Structure of the Lower Chromosphere. (E/T) É. E. Dubov. 11, 269 (1967) [44, 342 (1967)]

The Problem of Helium Emission in the Chromosphere. (T/E) K. I. Nikol'skaya. 11, 839 (1968) [44, 1043 (1967)]

CLUSTERS, GLOBULAR

Space Distribution of Different Types of Stars in the Globular Cluster M 13. (E/T) V. E. Yakimov. 11, 99 (1967) [44, 129 (1967)]

Conditions for the Presence of a Corona around a Stationary, Spherically Symmetric Stellar System. (T/E) K. F. Ogorodnikov. 11, 308 (1967) [44, 390 (1967)]

CLUSTERS, OPEN

Apparent Stellar Density Distributions in Some Open Clusters. (E) Yu. P. Panarin. 11, 103 (1967) [44, 134 (1967)]

COMETS, MOTIONS

Evolution of Short-Period Comet Orbits from 1660 to 2060, and the Role of the Outer Planets. (T/E) E. I. Kazimirchak-Polonskaya. 11, 349 (1967) [44, 439 (1967)]

Orbital Evolution of Comets Neuimin 2 (1916 II), Comas Solá (1927 III), and Schwassmann-Wachmann 2 (1929 I) over the 4000 Years from 1660-2060. (T/E) N. A. Belyaev. 11, 366 (1967) [44, 461 (1967)]

COMETS, ORIGIN AND EVOLUTION

New Evidence for the Eruptive Origin of Comets and Meteoritic Matter. (T/E) S. K. Vsekhsvyatskii. 11, 473 (1967) [44, 595 (1967)]

COMETS, PHYSICAL PROPETIES

Grain Formation in a Comet Atmosphere through Condensation of Gas. (T/E) A. Z. Dolginov. 11, 345 (1967) [44, 434 (1967)]

The Inverse Problem in the Theory of Cometary Forms. (T) Yu. N. Gnedin. 11, 485 (1967) [44, 610 (1967)]

The Third Conference on Comet Physics. (R) V. Ivanchuk. 11, 544 (1967) [44, 682 (1967)]

Comets in the Solar Wind. III. (T) Z. M. Ioffe. 11, 668 (1968) [44, 835 (1967)]

Polarimetry of the Tail of Comet Ikeya-Seki. (E) V. S. Matyagin, Sh. N. Sabitov, and A. V. Kharitonov. 11, 863 (1968) [44, 1075 (1967)]

Some Magnetohydrodynamic Effects in Comets. (T) Z. M. Ioffe. 11, 1044 (1968) [44, 1304 (1967)]

CONFERENCES AND MEETINGS

The Noordwijk Symposium: Radio Astronomy and the Galaxy. (R) S. B. Pikel'ner. 11, 178 (1967) [44, 233 (1967)]

A Conference in Memory of Academician G. A. Shain. (R) R. É. Gershberg. 11, 184 (1967) [44, 237 (1967)]

The Fourth "Texas" Symposium on Relativistic Astrophysics. (R) I. D. Novikov. 11, 541 (1967) [44, 680 (1967)]

The Third Conference on Comet Physics. (R) V. Ivanchuk. 11, 544 (1967) [44, 682 (1967)]

CONVECTIVE INSTABILITY

Absolute and Convective Instability in Gravitating Systems. (T) M. N. Maksumov. 11, 639 (1968) [44, 798 (1967)]

Oscillatory Convection of a Conducting Gas in a Strong Magnetic Field. (T) S. I. Syrovat-skii and Yu. D. Zhugzhda. 11, 945 (1968) [44, 1180 (1967)]

CORONA

The Ly_α / Ly_β Intensity Ratio of the O VIII Ion in the Spectrum of the Solar Corona. (T/E) I. L. Beigman and L. A. Vainshtein. 11, 531 (1967) [44, 668 (1967)]

The Mean Temperature of the Solar Corona. (T/E) G. M. Nikol'skii. 11, 837 (1968) [44, 1040 (1967)]

COSMIC RAYS

Interaction of Cosmic Rays with Primordial Radiation. (T) I. L. Rozental'. 11, 448 (1967) [44, 563 (1967)]

Measurements of the Cosmic-Ray Nuclei of the Solar-Activity Minimum of 1964-1965. (E) L. V. Kurnosova, L. A. Razorenov, A. A. Suslov, S. I. Syrovat-skii, and M. I. Fradkin. 11, 624 (1968) [44, 778 (1967)]

COSMOGONY AND COSMOLOGY

Cosmological Deductions from Observations of Quasistellar Sources. (T) V. M. Dashevskii and Ya. B. Zel'dovich. 11, 52 (1967) [44, 67 (1967)]

The Origin of Galaxies in an Expanding Universe. (T) A. G. Doroshkevich, Ya. B. Zel'dovich, and I. D. Novikov. 11, 233 (1967) [44, 295 (1967)]

Interaction of Cosmic Rays with Primordial Radiation. (T) I. L. Rozental'. 11, 448 (1967) [44, 563 (1967)]

The Metagalactic Radio Background in Evolving Model Universes. (T) V. V. Vaisberg. 11, 644 (1968) [44, 805 (1967)]

Cosmological Models and Spatial-Homogeneity Criteria. (T) L. P. Grishchuk. 11, 881 (1968) [44, 1097 (1967)]

The Fragmentation of Matter in a Turbulent Metagalactic Medium. I. (T) L. M. Ozernoi and A. D. Chernin. 11, 907 (1968) [44, 1131 (1967)]

CRAB NEBULA

An Investigation of the Crab Nebula at 8.2 mm. (E) L. I. Matveenko and A. V. Pavlov. 11, 300 (1967) [44, 381 (1967)]

Observations of a Lunar Occultation of the Crab Nebula at 3.3-cm Wavelength. (E) L. I. Matveenko and R. L. Sorochenko. 11, 557 (1968) [44, 693 (1967)]

Radio Emission of the Crab Nebula and Jupiter at 77.5-GHz Frequency. (E) A. G. Kislyakov and Yu. V. Lebskii. 11, 561 (1968) [44, 697 (1967)]

DISCRETE RADIO SOURCES

Spectra and the Frequency Dependence of Angular Dimensions of Some Models of Discrete Sources of Cosmic Radio Emission. (T) S. Ya. Braude. 11, 244 (1967) [44, 309 (1967)]

Decameter Spectrum of the Discrete Sources Cassiopeia A and Cygnus A. (E) V. V. Belikovich, E. A. Benediktov, and Yu. S. Korobkov. 11, 789 (1968) [44, 981 (1967)]

Radio-Source Spectra at Meter Wavelengths. (E) V. S. Artyukh, V. V. Vitkevich, and R. D. Dagkesamanskii. 11, 792 (1968) [44, 984 (1967)]

Preliminary Results of 2.11-mm Observations of Discrete Radio Sources. (E) A. G. Kislyakov and A. I. Naumov. 11, 1059 (1968) [44, 1324 (1967)]

DYNAMICS AND KINEMATICS OF STELLAR SYSTEMS

Conditions for the Presence of a Corona around a Stationary, Spherically Symmetric Stellar System. (T/E) K. F. Ogorodnikov. 11, 308 (1967) [44, 390 (1967)]

A Test Star in a Stellar System. (T) L. S. Marochnik. 11, 873 (1968) [44, 1087 (1967)]

A Study of the Dynamics of Triple Systems by Means of Statistical Sampling. (T) T. A. Agekyan and Zh. P. Anosova. 11, 1006 (1968) [44, 1261 (1967)]

Collective Processes in Bounded Gravitating Systems. (T) M. N. Maksumov. 11, 1015 (1968) [44, 1274 (1967)]

On Possibilities of Close Encounters of Galaxies. V. M. Tomazov. 11, 1020 (1968) [44, 1280 (1967)]

EARTH, ATMOSPHERE

A Satellite Technique for Sounding the Optical Properties of the Atmosphere. (T/E) V. G. Fesenkov. 11, 1 (1967) [44, 3 (1967)]

The Submillimeter and Infrared Transmittance of the Atmosphere at the North Pole of Cold. (E) N. V. Vasil'chenko, N. S. Kardashev, V. I. Moroz, I. K. Morozov, A. N. Repin, and G. S. Khromov. 11, 720 (1968) [44, 897 (1967)]

A Short Method for Determining the Transparency Coefficients of the Earth's Atmosphere. (E) G. A. Kharitonova. 11, 1066 (1968) [44, 1331 (1967)]

EARTH, ROTATION

Nonuniformities in the Earth's Rotation from Astronomical Observations during 1955.5-1965.0. (E) N. S. Sidorenkov. 11, 516 (1967) [44, 650 (1967)]

ERRATA

Errata. 11, 186 (1967)

Errata. 11, 550 (1967)

GALAXIES, CLUSTERS OF

General Features of Clusters of Galaxies. (R) K. Rudnicki. 11, 59 (1967) [44, 77 (1967)]

On Possibilities of Close Encounters of Galaxies. V. M. Tomozov. 11, 1020 (1968) [44, 1280 (1967)]

GALAXIES, INTERACTING

The Possibility of a Long Lifetime for Intergalactic Arms. (T/E) A. V. Zasov. 11, 785 (1968) [44, 975 (1967)]

GALAXIES, ORIGIN AND EVOLUTION

The Origin of Galaxies in an Expanding Universe. (T) A. G. Doroshkevich, Ya. B. Zel'dovich, and I. D. Novikov. 11, 233 (1967) [44, 295 (1967)]

GALAXIES, PECULIAR

The Nucleus of the Seyfert Galaxy NGC 5548. (E) É. A. Dibai, V. F. Esipov, and V. I. Pronik. 11, 553 (1968) [44, 689 (1967)]

A Spectrophotometric Study of Seyfert-Galaxy Nuclei. (E/T) É. A. Dibai and V. I. Pronik. 11, 767 (1968) [44, 952 (1967)]

Spectrophotometry of the Jet in NGC 4486. (E) V. I. Pronik, I. I. Pronik, and K. K. Chuvaev. 11, 777 (1968) [44, 965 (1967)]

The Structure and Mass of Supernova, Quasar, and Seyfert-Galaxy Envelopes. (T/E) I. M. Gordon. 11, 920 (1968) [44, 1146 (1967)]

GALAXIES, RADIO EMISSION

The Nature of the X Radiation of Radio Galaxies. (T/E) I. S. Shklovskii. 11, 45 (1967) [44, 58 (1967)]

Radio Emission of Normal Galaxies at 8 cm. (E) V. N. Kuril'chik, L. V. Onishchenko, and V. M. Turevskii. 11, 528 (1967) [44, 665 (1967)]

The Radio Luminosity Function of Galaxies. (T/E) G. B. Sholomitskii. 11, 756 (1968) [44, 939 (1967)]

GALAXY, RADIO EMISSION

The Noordwijk Symposium: Radio Astronomy and the Galaxy. (R) S. B. Pikel'ner. 11, 178 (1967) [44, 233 (1967)]

Possible Maser Effects in Clouds of Interstellar Hydrogen in the Galactic Corona. (T) I. S. Shklovskii. 11, 240 (1967) [44, 304 (1967)]

GALAXY (MILKY WAY), SPECTROPHOTOMETRY

Spectrophotometry of Some Southern Milky Way Fields. (E) A. S. Sharov and E. B. Kostyakova. 11, 75 (1967) [44, 98 (1967)]

Observations and Interpretation of the Ultraviolet Radiation of the Galaxy. (E) V. G. Kurt and R. A. Syunyaev. 11, 928 (1968) [11, 1157 (1967)]

GRAVITATIONAL INSTABILITY

Absolute and Convective Instability in Gravitating Systems. (T) M. N. Maksumov. 11, 639 (1968) [4, 798 (1967)]

HYDROGEN ATOMS

Decay of Molecular Hydrogen Ions through Collision with Thermal Electrons. (T) G. V. Dubrovskii and V. D. Ob'edkov. 11, 305 (1967) [44, 387 (1967)]

INSTRUMENTS AND ACCESSORIES

Environmental Influences on Star Observations with a Transit Instrument. (E) V. É. Brandt. 11, 150 (1967) [44, 196 (1967)]

The 120th Anniversary of the Carl Zeiss Works, Jena, and the 150th Anniversary of the Birth of Carl Zeiss. 11, 173 (1967) [44, 227 (1967)]

Tests of the 535-mm Singlet Objective of the Large New Coronagraph. (E) G. M. Nikol'skii and A. A. Sazanov. 11, 337 (1967) [44, 426 (1967)]

The Efficiency of a Two-Chamber Image Converter in Visual Observations. (E) L. N. Korol' and L. V. Ksanfomaliti. 11, 716 (1968) [44, 893 (1967)]

A Two-Channel Photoelectric Spectrophotometer with Photon-Count Recording. (E) G. S. Tsarevskii and N. N. Guseva. 11, 1063 (1968) [44, 1329 (1967)]

INTERGALACTIC MEDIUM

The Intergalactic Medium According to Radio Observations. (T/E) Yu. N. Parijskii. 11, 782 (1968) [44, 971 (1967)]

The Fragmentation of Matter in a Turbulent Metagalactic Medium. I. (T) L. M. Ozernoi and A. D. Chernin. 11, 907 (1968) [44, 1131 (1967)]

INTERPLANETARY MEDIUM

Gravitational Capture of Cosmic Dust by the Sun and Planets and Evolution of the Circumterrestrial Cloud. (T) V. V. Radzievskii. 11, 128 (1967) [44, 166 (1967)]

INTERSTELLAR MEDIUM

The Critical Wavelength in a System of Stars and Interstellar Gas. (T) M. N. Maksumov. 11, 79 (1967) [44, 103 (1967)]

Heating of the Interstellar Gas by Subcosmic Rays, and the Formation of Clouds. (T/E) S. B. Pikel'ner. 11, 737 (1968) [44, 915 (1967)]

IONIZATION AND EXCITATION

Cross Sections for Ionization of Ions by Electron Impact. (T) I. L. Beigman and L. A. Vainshtein. 11, 712 (1968) [44, 889 (1967)]

JUPITER

Radio Emission of the Crab Nebula and Jupiter at 77.5-GHz Frequency. (E) A. G. Kislyakov and Yu. V. Lebskii. 11, 561 (1968) [44, 697 (1967)]

MAGNETOHYDRODYNAMICS

Propagation of Hydromagnetic Waves in a Slightly Inhomogeneous Medium. (T) A. V. Getling. 11, 410 (1967) [44, 513 (1967)]

Variable Radiation in a Magnetodynamic Quasar Model. I. Statistical Properties of the Cyclic Variability. (T/E) L. M. Ozernoi and V. E. Chertoprud. 11, 428 (1967) [44, 537 (1967)]

MARS

An Estimate of the Physical Properties of the Martian Surface from the Results of Radio and Infrared Observations. (E/T) O. N. Rzhiga. 11, 113 (1967) [44, 147 (1967)]

The Spectrum of Mars, 1.1-2.5 μ, at the 1965 Opposition. (E/T) N. V. Vasil'chenko and V. I. Moroz. 11, 456 (1967) [44, 573 (1967)]

An Optical Model for the Atmosphere of Mars. (T/E) I. N. Minin. 11, 1024 (1968) [44, 1284 (1967)]

METEORITES

Intensity Distribution of the Nuclear-Active Component of Cosmic Rays in Meteorites. (T) A. K. Lavrukhina and G. L. Ustinova. 11, 868 (1968) [44, 1081 (1967)]

METEORITIC MATERIAL IN SOLAR SYSTEM

New Evidence for the Eruptive Origin of Comets and Meteoritic Matter. (T/E) S. K. Vsekhsvyatskii. 11, 473 (1967) [44, 595 (1967)]

The Influence of Direct Solar Radiation Pressure on the Motion of Particles in the Circumterrestrial Dust Cloud. (T) N. B. Divari and Yu. A. Klikh. 11, 672 (1968) [44, 840 (1967)]

Some Statistical Characteristics of Meteor Matter in the Neighborhood of the Earth's Orbit. (E/T) R. G. Lazarev. 11, 679 (1968) [44, 849 (1967)]

METEORS, PHYSICAL PROPERTIES

The Parameter F of Meteor Fragmentation. (E) B. Yu. Levin and A. N. Simonenko. 11, 501 (1967) [44, 630 (1967)]

Accelerated Motion during Meteor Vaporization and Fragmentation. (E/T) E. N. Kramer. 11, 510 (1967) [44, 642 (1967)]

Comments on Fialko's Paper, "The Energy Distribution of Meteoroids." Allan H. Marcus. 11, 537 (1967) [44, 675 (1967)]

Comments on Marcus' Criticism of "The Energy Distribution of Meteoroids." E. I. Fialko. 11, 539 (1967) [44, 677 (1967)]

Comets in the Solar Wind. III. (T) Z. M. Ioffe. 11, 668 (1968) [44, 835 (1967)]

The True and Apparent Kinetic-Energy Distribution of Meteoroids. (T/E) E. I. Fialko. 11, 692 (1968) [44, 864 (1967)]

Fragmentation of Dense Meteoroids in the Atmosphere. (T/E) V. N. Lebedinets and Yu. I. Portnyagin. 11, 700 (1968) [44, 874 (1967)]

METEORS, RADAR OBSERVATIONS

Distribution of the Durations of Radio Echoes from Overdense Meteor Trails for a Nonuniform Meteoroid Mass Distribution. (T) O. I. Bel'kovich. 11, 507 (1967) [44, 638 (1967)]

METEORS, SPECTRA

Identification of Spectral Lines in Meteors by Means of Laboratory Dispersion Standards. (E) V. A. Smirnov. 11, 1053 (1968) [44, 1316 (1967)]

METEOR STREAMS

The Turbulent Structure and Radio Emission of Shock Waves in Rarefied Plasma. (T) V. V. Zaitsev. 11, 392 (1967) [44, 490 (1967)]

MOON, ORIGIN AND EVOLUTION

Thermal History of the Moon. (T/E) O. I. Ornatskaya and Ya. I. Al'ber. 11, 122 (1967) [44, 158 (1967)]

MOON, RADIO EMISSION

Precise Measurement of Lunar Radio Emission at 1.8, 2, and 2.5 cm. (E) V. M. Plechkov. 11, 119 (1967) [44, 154 (1967)]

Measurement of Radio Emission from the Moon in the 30-60 cm Band. (E) V. S. Troitskii, V. D. Krotikov, and N. M. Tseitlin. 11, 327 (1967) [44, 413 (1967)]

Observations of Polarization of Lunar Radio Emission at 0.8 cm with High Resolution. (E) B. Ya. Losovskii. 11, 329 (1967) [44, 416 (1967)]

Results of Measurements of Lunar Radio Emission at 25.0 and 30.2 cm. (E) V. A. Alekseev, L. N. Bondar', S. A. Kamenskaya, V. D. Krotikov, Yu. G. Matveev, V. A. Porfir'ev, and K. M. Strezhneva. 11, 471 (1967) [44, 593 (1967)]

The Roughness of the Moon's Surface Layer as It Affects the Lunar Emissivity and Radio-Brightness Distribution. (E) V. A. Alekseev, T. N. Aleshina, V. D. Krotikov, and V. S. Troitskii. 11, 860 (1968) [44, 1070 (1967)]

MOON, SURFACE PROPERTIES

Some Results of Measurements of the Total Stokes Vector for Details of the Lunar Surface. (E) Yu. N. Lipskii and M. M. Pospergelis. 11, 324 (1967) [44, 410 (1967)]

Reflection Coefficient for a Plane-Layered Lunite Medium for Different Angles of Incidence of Electromagnetic Waves. (T/E) Yu. G. Matveev. 11, 332 (1967) [44, 419 (1967)]

The Role of Secondary Craters in Forming the Lunar Relief. (E) B. Yu. Levin. 11, 662 (1968) [44, 828 (1967)]

Some New Data on the Morphology of the Lunar Surface. (E) V. B. Neiman. 11, 665 (1968) [44, 831 (1967)]

An Explanation for the Albedo Differences on the Moon. (E/T) B. Yu. Levin and L. N. Radlova. 11, 1034 (1968) [44, 1296 (1967)]

MOON AND PLANETS, OBSERVATIONS FROM

Astronomical Determination of Position on the Moon. (T/E) V. B. Gurevich. 11, 137 (1967) [44, 178 (1967)]

A Method for Determining the Rotation Elements of Planets. (T) V. B. Gurevich. 11, 856 (1968) [44, 1065 (1967)]

NEBULAE, DIFFUSE

Detection and Investigation of the 5-cm Excited-Hydrogen Radio Line ($n_{105} \rightarrow n_{104}$) in Several Galactic Nebulae. (E/T) A. F. Dravskikh and Z. V. Dravskikh. 11, 27 (1967) [44, 35 (1967)]

Photoelectric Observations of the Polarization and Color of the Reflection Nebula near Merope. (E) B. P. Artamonov and Yu. S. Efimov. 11, 607 (1968) [44, 755 (1967)]

Radio Emission of the $n_{105} \rightarrow n_{104}$ Excited-Hydrogen Line in Several Northern Nebulae. (E/T) V. M. Gudnov and R. L. Sorochenko. 11, 805 (1968) [44, 1001 (1967)]

Observations of a Bright Filament in the Southern Part of NGC 7000 with a Fabry-Perot Étalon. (E) B. P. Artamonov and P. V. Shcheglov. 11, 892 (1968) [44, 1114 (1967)]

NEBULAE, PLANETARY

The Nature of AG Pegasi. (E/T) A. A. Boyarchuk. 11, 8 (1967) [44, 12 (1967)]

Absolute Emission-Line Intensities in Planetary Nebulae. III. (E) B. A. Vorontsov-Vel'yaminov, E. B. Kostyakova, O. D. Dokuchaeva, and V. P. Arkhipova. 11, 285 (1967) [44, 361 (1967)]

The Physical Parameters of Planetary Nebulae. (E) V. P. Arkhipova and E. B. Kostyakova. 11, 812 (1968) [44, 1009 (1967)]

NEUTRINO RADIATION

Neutrino Energy Radiation in the β Interaction of Electrons and Positrons with Nuclei. (T) V. S. Imshennik, D. K. Nadezhin, and V. S. Pinaev. 11, 617 (1968) [44, 768 (1967)]

NOVAE

Spectrophotometry of Nova Herculis 1960. (E) M. V. Savel'eva. 11, 576 (1968) [44, 716 (1967)]

ORBITS, THEORY AND COMPUTATION

Geocentric Trajectories for Particles of a Single Class. (T) V. P. Orlov. 11, 166 (1967) [44, 217 (1967)]

PARTICLE PHYSICS

Neutrino Energy Radiation in the β Interaction of Electrons and Positrons with Nuclei. (T) V. S. Imshennik, D. K. Nadezhin, and V. S. Pinaev. 11, 617 (1968) [44, 768 (1967)]

PERSONALIA AND OBITUARIES

Mikhail Fedorovich Subbotin, 1893-1968. 11, 375 (1967) [44, 473 (1967)]

A Noteworthy Anniversary. K. A. Kulikov. 11, 548 (1967) [44, 685 (1967)]

PLANETS AND SATELLITES

The Optical Characteristics of Some Cosmic and Terrestrial Surfaces. (T/E) M. P. Volarovich and N. Ya. Avdeev. 11, 342 (1967) [44, 431 (1967)]

A Method for Determining the Rotation Elements of Planets. (T) V. B. Gurevich. 11, 856 (1968) [44, 1065 (1967)]

PLASMA PROCESSES

Thermomagnetic Waves and Thermomagnetic Instability in Strongly Ionized Low-Density Astronomical Objects. (T) I. É. Gurevich and B. L. Gel'mont. 11, 609 (1968) [44, 757 (1967)]

Radio Emission from Beams of Fast Particles under Cosmic Conditions. (T) S. A. Kaplan and V. N. Tsytovich. 11, 956 (1968) [44, 1194 (1967)]

PRIMORDIAL BACKGROUND RADIATION

Interaction of Cosmic Rays with Primordial Radiation. (T) I. L. Rozental'. 11, 448 (1967) [44, 563 (1967)]

The Uniqueness of the Interpretation of Isotropic Cosmic Radiation with T = 3°K. (T/E) Ya. B. Zel'dovich and I. D. Novikov. 11, 526 (1967) [44, 663 (1967)]

Measurements of the Temperature of the Primordial Background Radiation at 8.2-mm Wavelength. (E) V. I. Puzanov, A. E. Salomonovich, and K. S. Stankevich. 11, 905 (1968) [44, 1129 (1967)]

QUASISTELLAR OBJECTS, CONFERENCES

The Fourth "Texas" Symposium on Relativistic Astrophysics. (R) I. D. Novikov. 11, 541 (1967) [44, 680 (1967)]

QUASISTELLAR OBJECTS, COSMOLOGICAL THEORY

Cosmological Deductions from Observations of Quasistellar Sources. (T) V. M. Dashevskii and Ya. B. Zel'dovich. 11, 52 (1967) [44, 67 (1967)]

QUASISTELLAR OBJECTS, OPTICAL OBSERVATIONS

The Optical Spectrum of the Quasistellar Radio Source 3C-345. (E) E. A. Dibai and V. F. Esipov. 11, 43 (1967) [44, 55 (1967)]

Spectra of Some Blue Objects in High Galactic Latitudes. (E/T) É. A. Dibai and V. F. Esipov. 11, 220 (1967) [44, 278 (1967)]
Observations of a Bright Filament in the Southern Part of NGC 7000 with a Fabry-Perot Étalon. (E) B. P. Artamonov and P. V. Shcheglov. 11, 892 (1968) [44, 1114 (1967)]

QUASISTELLAR OBJECTS, PHYSICAL THEORY
Variable Radiation in a Magnetodynamic Quasar Model. I. Statistical Properties of the Cyclic Variability. (T/E) L. M. Ozernoi and V. E. Chertoprud. 11, 428 (1967) [44, 537 (1967)]
A Binary System as a Quasar Model. (E/T) B. V. Komberg. 11, 727 (1968) [44, 906 (1967)]
The Structure and Mass of Supernova, Quasar, and Seyfert-Galaxy Envelopes. (T/E) I. M. Gordon. 11, 920 (1968) [44, 1146 (1967)]

QUASISTELLAR OBJECTS, RADIO OBSERVATIONS
The 8-cm Radio Emission of Two Quasistellar Galaxies. (E) V. N. Kuril'chik and Yu. F. Kokin. 11, 374 (1967) [44, 471 (1967)]

RADAR ASTRONOMY
Distribution of the Durations of Radio Echoes from Overdense Meteor Trails for a Nonuniform Meteoroid Mass Distribution. (T) O. I. Bel'kovich. 11, 507 (1967) [44, 638 (1967)]
Characteristics of the Spectrum of Radio Waves Reflected by Venus. (E) Yu. N. Aleksandrov, V. A. Zyatitskii, and O. N. Rzhiga. 11, 852 (1968) [44, 1060 (1967)]

RADIATION SCATTERING
Spectra of Some Blue Objects in High Galactic Latitudes. (E/T) É. A. Dibai and V. F. Esipov. 11, 220 (1967) [44, 278(1967)]

RADIO ASTRONOMY
Radiophysics – Abstracts of Papers on Astrophysics Published in Radiofizika, Vol. 9, Nos. 1-3, January-June, 1966. (R) 11, 380 (1967) [44, 477 (1967)]
Radiophysics: Abstracts of Papers on Astrophysics Published in the Journal Izvestiya Vysshikh Uchebnykh Zavedenii – Radiofizika. (R) 11, 1068 (1968) [44, 1333 (1967)]

RADIO EMISSION MECHANISMS
A Coherent Synchrotron Mechanism for Radio Emission from Cosmic Sources. (T/E) V. V. Zheleznyakov. 11, 33 (1967) [44, 42 (1967)]
Possible Maser Effect in Clouds of Interstellar Hydrogen in the Galactic Corona. (T) I. S. Shklovskii. 11, 240 (1967) [44, 304 (1967)]
A Possible Interpretation of the Radio Emission from Small Cosmic Sources. (T) S. A. Kaplan. 11, 416 (1967) [44, 521 (1967)]
Radio Emission from Beams of Fast Particles under Cosmic Conditions. (T) S. A. Kaplan and V. N. Tsytovich. 11, 956 (1968) [44, 1194 (1967)]

RADIO LINE EMISSIONS
Detection and Investigation of the 5-cm Excited-Hydrogen Radio Line ($n_{105} \rightarrow n_{104}$) in Several Galactic Nebulae. (E/T) A. F. Dravskikh and Z. V. Dravskikh. 11, 27 (1967) [44, 35 (1967)]
The Discrete Radio-Frequency Spectrum of Atomic Hydrogen. (T/E) L. A. Minaeva, I. I. Sobel'man, and R. L. Sorochenko. 11, 800 (1968) [44, 995 (1967)]
Radio Emission of the $n_{105} \rightarrow n_{104}$ Excited-Hydrogen Line in Several Northern Nebulae. (E/T) V. M. Gudnov and R. L. Sorochenko. 11, 805 (1968) [44, 1001 (1967)]

RELATIVITY AND GRAVITATION
Behavior of a Clock Moving in a Centrally Symmetric Gravitational Field. (T) R. F. Polishchuk. 11, 886 (1968) [44, 1104 (1967)]

SATURN
The Influence of Saturn's Rings on Its Exosphere and Magnetic Field. (T/E) E. Ya. Zlotnik. 11, 862 (1967) [44, 581 (1967)]

SELENODESY
Astronomical Determination of Position on the Moon. (T/E) V. B. Gurevich. 11, 137 (1967) [44, 178 (1967)]
Possibilities for Determining the Absolute Heights of Points on the Lunar Surface from Earth-Based Observations. (T) A. A. Gurshtein. 11, 535 (1967) [44, 672 (1967)]

SHOCK WAVES
The Theory of Strong Shock Propagation in an Inhomogeneous Cosmic Medium. (T) S. A. Kaplan. 11, 302 (1967) [44, 384 (1967)]
The Turbulent Structure and Radio Emission of Shock Waves in Rarefied Plasma. (T) V. V. Zaitsev. 11, 392 (1967) [44, 490 (1967)]
High-Condensation Shock Waves in a Gas-Dust Medium. (T) E. Ya. Gidalevich. 11, 614 (1968) [44, 764 (1967)]

SOLAR-TERRESTRIAL RELATIONSHIPS
Some Regularities in the Problem of Solar Activity and the Earth's Atmosphere. (E) É. R. Mustel'. 11, 932 (1968) [44, 1162 (1967)]
Altitude Variations in the Main Isobaric Surfaces Following Solar Flares. (E) R. F. Usmanov. 11, 942 (1968) [44, 1176 (1967)]

SOLAR WIND
Comets in the Solar Wind. III. (T) Z. M. Ioffe. 11, 668 (1968) [44, 835 (1967)]
Some Magnetohydrodynamic Effects in Comets. (T) Z. M. Ioffe. 11, 1044 (1968) [44, 1304 (1967)]

SPACE PROBES
Observations of Type III Solar Radio Bursts with the Venus 2 Probe. (E/T) V. I. Slysh. 11, 389 (1967) [44, 487 (1967)]
Observations and Interpretation of the Ultraviolet Radiation of the Galaxy. (E) V. G. Kurt and R. A. Syunyaev. 11, 928 (1968) [44, 1157 (1967)]

SPECTRA, LINE PROFILES
Stark Broadening of Hydrogen Lines. (T) L. N. Kurochka. 11, 290 (1967) [44, 368 (1967)]
Tables of the Saturation Function $\Psi(\alpha, y)$. (T) P. A. Ollinyk, B. T. Babii, and A. T. Sakhman. 11, 648 (1968) [44, 810 (1967)]

STARS, METAL-LINE AND MAGNETIC
Kinematic and Morphological Properties of Stars with Enhanced Metal Lines. (E/T) N. S. Komarov. 11, 84 (1967) [44, 110 (1967)]
The Balmer Discontinuities of Peculiar and Magnetic A Stars. (T/E) V. M. Lyubin. 11, 979 (1968) [44, 1224 (1967)]

STARS, MOTIONS
Peculiar Motions of O and B Stars. (E/T) R. B. Shatsova. 11, 313 (1967) [44, 396 (1967)]

STARS, PECULIAR
An Explanation of the Anomalous Helium Abundance in the Star 3 Cen A. (T) I. D. Novikov and R. A. Syunyaev. 11, 252 (1967) [44, 320 (1967)]

STARS, PULSATION THEORY
The Frequency Distribution of Stellar Oscillations. (T) Yu. V. Vandakurov. 11, 630 (1968) [44, 786 (1967)]
An Estimate for the Mixing Length from Stellar-Variability Theory. I. Adiabatic Pulsations in Models of δ Cephei and RR Lyrae Variables. (T) V. I. Aleshin. 11, 982 (1968) [44, 1228 (1967)]

STARS, SPECTROPHOTOMETRY

Absolute Spectral Energy Distribution for 14 Bright Pleiades Stars. (E) A. V. Kharitonov. 11, 533 (1967) [44, 669 (1967)]

Absolute Spectral Energy Distribution for 18 Type B5-M2 Stars. (E) A. V. Kharitonov and L. N. Knyazeva. 11, 598 (1968) [44, 745 (1967)]

STARS, STRUCTURE AND EVOLUTION

The Influence of Line Absorption on the Internal Structure of Massive Stars. (T) V. S. Imshennik and D. K. Nadezhin. 11, 297 (1967) [44, 377 (1967)]

STARS, SUPERMASSIVE

Evolution of Supermassive Stars Stabilized by Large-Scale Motions. (T) G. S. Bisnovatyi-Kogan, Ya. B. Zel'dovich, and I. D. Novikov. 11, 419 (1967) [44, 525 (1967)]

Calculation of the Gravitational Collapse of a Superstar. (T) A. I. Voropinov, V. L. Zaguskin, and M. A. Podurets. 11, 442 (1967) [44, 556 (1967)]

STARS, SYMBIOTIC

The Binary Nature of Z Andromedae. (E/T) A. A. Boyarchuk. 11, 818 (1968) [44, 1016 (1967)]

STARS, WOLF-RAYET AND EMISSION-LINE

The Spectrum of P Cygni in 1964. (T/E) L. S. Luud. 11, 211 (1967) [44, 267 (1967)]

A Detailed Analysis of Spectral Lines of Wolf-Rayet Type Stars. (T/E) Lyu Van Lyong. 11, 224 (1967) [44, 283 (1967)]

SUN, COSMIC RAYS

Measurements of the Cosmic-Ray Nuclei of the Solar-Activity Minimum of 1964-1965. (E) L. V. Kurnosova, L. A. Razorenov, A. A. Suslov, S. I. Syrovat-skii, and M. I. Fradkin. 11, 624 (1968) [44, 778 (1967)]

SUN, MAGNETIC FIELDS

Preliminary Communication on Short-Term Oscillations of Solar Magnetic Fields. (E) A. B. Severnyi. 11, 383 (1967) [44, 481 (1967)]

Oscillatory Convection of a Conducting Gas in a Strong Magnetic Field. (T) S. I. Syrovat-skii and Yu. D. Zhugzhda. 11, 945 (1968) [44, 1180 (1967)]

The Time Dependence of the Magnetic-Field Strength of Sunspots. (E) R. N. Ikhsanov. 11, 969 (1968) [44, 1211 (1967)]

SUN, MOLECULES IN ATMOSPHERE

The Possibility of Formation of Triatomic Molecules in the Solar Atmosphere. (T) M. Ch. Pande and G. F. Sitnik. 11, 70 (1967) [44, 91 (1967)]

Vibrational and Kinetic Temperatures for CO Molecules in the Solar Photosphere. (E/T) G. F. Sitnik and M. Ch. Pande. 11, 403 (1967) [44, 504 (1967)]

Two Decay Processes for CO Molecules in the Solar Photosphere. (T) G. F. Sitnik and M. Ch. Pande. 11, 588 (1968) [44, 732 (1967)]

Equilibrium Distribution of CO Molecules over Their Degrees of Freedom in the Solar Atmosphere. (T) M. Ch. Pande. 11, 592 (1968) [44, 737 (1967)]

An Interpretation of Observations of CO Lines in the Solar Spectrum. (T/E) M. A. Livshits and V. V. Polonskii. 11, 965 (1968) [44, 1206 (1967)]

SUN, RADIO EMISSION

Solar Radio Emission at 2 and 0.2 MHz. (E/T) V. I. Slysh. 11, 72 (1967) [44, 94 (1967)]

Observations of Type III Solar Radio Bursts with the Venus 2 Probe. (E/T) V. I. Slysh. 11, 389 (1967) [44, 487 (1967)]

The Doppler Effect as the Cause of the Splitting in Type II Radio-Burst Spectra. (T/E) V. V. Fomichev and I. M. Chertok. 11, 396 (1967) [44, 495 (1967)]

An Interpretation of the Dip in the Spectrum of Millimeter Solar Radio Emission. (T/E) S. A. Kaplan and V. N. Tsytovich. 11, 834 (1968) [44, 1036 (1967)]

Measurements of Solar Radio Emission at Millimeter and Submillimeter Wavelengths. (E) L. I. Fedoseev, L. V. Lubyako, and L. M. Kukin. 11, 953 (1968) [44, 1191 (1967)]

Radio Emission from Beams of Fast Particles under Cosmic Conditions. (T) S. A. Kaplan and V. N. Tsytovich. 11, 956 (1968) [44, 1194 (1967)]

The Change in the Radio Spectrum of Active Regions with Passage behind the Solar Limb. (E) A. R. Abbasov, Sh. Akhmedov, A. S. Grebinskii, and A. P. Molchanov. 11, 1061 (1968) [44, 1326 (1967)]

SUN, ULTRAVIOLET EMISSION

Scattering of Solar Lyman-α Radiation by Galactic Hydrogen. (T/E) V. G. Kurt and T. A. Germogenova. 11, 278 (1967) [44, 352 (1967)]

SUN, X RAYS

Possible Mechanisms for Generating Hard X Rays in Solar Flares. (T) A. A. Korchak. 11, 258 (1967) [44, 328 (1967)]

SUNSPOTS

A Periodicity in the North-South Asymmetry of the Sunspot Distribution at the Minimum of New Cycles. (E) V. S. Berdichevskaya. 11, 283 (1967) [44, 358 (1967)]

The Observation and Interpretation of Some Regularities of Sunspot Development. (E) R. N. Ikhsanov. 11, 843 (1968) [44, 1048 (1967)]

The Time Dependence of the Magnetic-Field Strength of Sunspots. (E) R. N. Ikhsanov. 11, 969 (1968) [44, 1211 (1967)]

A Comparison of the Pulkovo and Greenwich Sunspot Catalogs. (E) R. S. Gnevysheva. 11, 976 (1968) [44, 1220 (1967)]

SUPERNOVAE

The Photometric Properties of Supernovae. (E) Yu. P. Pskovskii. 11, 63 (1967) [44, 82 (1967)]

Phase Dependence of the Colors of Type I and II Supernovae. (E) Yu. P. Pskovskii. 11, 570 (1968) [44, 708 (1967)]

The Type and Absolute-Magnitude Distributions of Galaxies Containing Supernovae. (E) Yu. P. Pskovskii. 11, 914 (1968) [44, 1139 (1967)]

SUPERNOVA REMNANTS

A Possibility for Determining Plasma Parameters in Supernova Envelopes. (T/E) I. M. Gordon. 11, 565 (1968) [44, 702 (1967)]

Detection of the Fe X 6374 A Line in the Spectrum of the Nebula NGC 6960. (E) R. V. Shcheglov. 11, 567 (1968) [44, 705 (1967)]

The Structure and Mass of Supernova, Quasar, and Seyfert-Galaxy Envelopes. (T/E) I. M. Gordon. 11, 920 (1968) [44, 1146 (1967)]

SYNCHROTRON RADIATION

A Coherent Synchronization Mechanism for Radio Emission from Cosmic Sources. (T/E) V. V. Zheleznyakov. 11, 33 (1967) [44, 42 (1967)]

ULTRAVIOLET EMISSION

Observations and Interpretation of the Ultraviolet Radiation of the Galaxy. (E) V. G. Kurt and R. A. Syunyaev. 11, 928 (1968) [44, 1157 (1967)]

VARIABLE STARS

The Nature of AG Pegasi. (E/T) A. A. Boyarchuk. 11, 8 (1967) [44, 12 (1967)]

Photoelectric and Spectrographic Observations of the Flares of UV Ceti in 1965. (E) R. E. Gershberg and P. F. Chugainov. 11, 205 (1967) [44, 260 (1967)]

Spectrophotometry of AG Draconis. (E) V. T. Doroshenko and N. S. Nikolov. 11, 453 (1967) [44, 570 (1967)]

On the Interpretation of the Excess Infrared Emission of Nonstationary Stars. (E/T) I. G. Kolesnik and D. A. Frank-Kamenetskii. 11, 726 (1968) [44, 905 (1967)]

VENUS

The CO_2 Bands and Some Optical Properties of the Atmosphere of Venus. (E/T) V. I. Moroz. 11, 653 (1968) [44, 816 (1967)]
Characteristics of the Spectrum of Radio Waves Reflected by Venus. (E) Yu. N. Aleksandrov, V. A. Zyatitskii, and O. N. Rzhiga. 11, 852 (1968) [44, 1060 (1967)]

X RAYS, EMISSION MECHANISMS

The Nature of the X Radiation of Radio Galaxies. (T/E) I. S. Shklovskii. 11, 45 (1967) [44, 58 (1967)]
Possible Mechanisms for Generating Hard X Rays in Solar Flares. (T) A. A. Korchak. 11, 258 (1967) [44, 328 (1967)]

X-RAY SOURCES

The Nature of the X-Ray Source Sco X-1. (T/E) I. S. Shklovskii. 11, 749 (1968) [44, 930 (1967)]

ZODIACAL LIGHT

A Meteor Model for the Zodiacal Cloud. (T/E) N. B. Divari. 11, 1048 (1968) [44, 1309 (1967)]
